Understanding and Using English Grammar is a developmental skills text for intermediate to advanced English language learners. It uses a grammar-based approach integrated with communicative methodologies to promote the development of all language skills in a variety of ways. Starting from a foundation of understanding form and meaning, students engage in meaningful communication about real actions, real things, and their own real lives in the classroom context. Understanding and Using English Grammar functions principally as a classroom teaching text but also serves as a comprehensive reference text for students and teachers.

The eclectic approach and abundant variety of exercise material remain the same as in the earlier editions, but each new edition incorporates new ways and means. In particular:

- **WARM-UP EXERCISES FOR THE GRAMMAR CHARTS**
  Newly created for the fourth edition, these innovative exercises precede the grammar charts and introduce the point(s) to be taught. They have been carefully crafted to help students discover the target grammar as they progress through each warm-up exercise.

- **LISTENING PRACTICE**
  Numerous listening exercises help students interact with the spoken language in a variety of settings that range from the relaxed, casual speech of everyday conversation to the academic content of classroom lectures. An audio CD accompanies the student text, and a full audio script can be found in the back of the book.

- **ACADEMIC READINGS**
  Students can read and respond to a wide selection of carefully crafted readings that focus on the target grammar structure.

- **EXPANDED SPEAKING ACTIVITIES**
  Students have even more opportunities in this fourth edition to share their experiences, express their opinions, and relate the target grammar to their personal lives. The text often uses the students’ own life experiences as context and regularly introduces topics of interest to stimulate the free expression of ideas in structured as well as open discussions.

- **CORPUS-INFORMED CONTENT**
  Based on the findings of our corpus researcher, Gena Bennett, grammar content has been added, deleted, or modified to reflect the discourse patterns of spoken and written English.
Understanding and Using English Grammar is accompanied by

• A comprehensive Workbook, consisting of self-study exercises for independent work.
• An all-new Teacher's Guide, with step-by-step teaching suggestions for each chart, notes to the teacher on key grammar structures, vocabulary lists, and expansion activities and PowerPoint presentations for key chapters.
• An expanded Test Bank, with additional quizzes, chapter tests, and mid-term and final exams.
• Test-Generator software that allows teachers to customize their own tests using quizzes and tests from the Test Bank.
• Azar Interactive, a computer-based program keyed to the text, provides easily understood content, all-new exercises, readings, listening and speaking activities, and comprehensive tests.
• PowerPoint presentations for key chapters. Based on real-world readings, these lessons are designed for use in the classroom as “beyond-the-book” activities. They can be found in the new Teacher's Guide or downloaded from AzarGrammar.com.
• A Chartbook, a reference book consisting only of the grammar charts.
• AzarGrammar.com. This Web site provides a variety of supplementary classroom materials and is a place where teachers can support each other by sharing their knowledge and experience.
• Fun with Grammar, a teacher resource text by Suzanne Woodward with communicative activities correlated with the Azar-Hagen Grammar Series. It is available as a text or as a download on AzarGrammar.com.

The Azar-Hagen Grammar Series consists of

• Understanding and Using English Grammar (blue cover), for upper-level students.
• Fundamentals of English Grammar (black), for mid-level students.
• Basic English Grammar (red), for lower or beginning levels.

Chapter 1
Overview of Verb Tenses

Exercise 1. Let’s talk: interviews and introductions.
Interview a classmate, and then introduce this person to the rest of the class or to a small group of classmates. Use the given topics or topics of your own choosing.

PARTNER B: I (go to classes / eat breakfast / etc.) every morning. What do you do every morning?
PARTNER A: I (eat breakfast / do my homework / etc.).

### Final -ed has three different pronunciations: /t/, /d/, and /əd/. The schwa /ə/ is an unstressed vowel sound. It is pronounced like a in *alone* in normal, rapid speech (e.g., *She lives alone*).

#### (a) looked → look /t/  
clapped → clap /t/  
missed → miss /t/  
watched → watch /t/  
finished → finish /t/  
laughed → laugh /t/  

**Final -ed** is pronounced /t/ after voiceless sounds.  
Voiceless sounds are made by pushing air through your mouth; no sound comes from your throat.  
Examples of voiceless sounds: "k," "p," "s," "ch," "sh," "f."

#### (b) smelled → smell /d/  
saved → save /d/  
cleaned → clean /d/  
robbed → rob /d/  
played → play /d/  

**Final -ed** is pronounced /d/ after voiced sounds.  
Voiced sounds come from your throat. If you touch your neck when you make a voiced sound, you can feel your voice box vibrate.  

#### (c) decided → decide /əd/  
needed → need /əd/  
wanted → want /əd/  
invited → invite /əd/  

**Final -ed** is pronounced /əd/ after "t" and "d" sounds. The sound /əd/ adds a whole syllable to a word.  
**COMPARE:**  
looked = one syllable → look /t/  
smelled = one syllable → smell /d/  
needed = two syllables → need /əd/

| (c) Sam had left before Ann got there. | If either before or after is used in the sentence, the past perfect is often not necessary because the time relationship is already clear. The simple past may be used, as in (d) and (f).  
**NOTE:** (c) and (d) have the same meaning; (e) and (f) have the same meaning. |
| (d) Sam left before Ann got there. |    |
| (e) After the guests had left, I went to bed. |    |
| (f) After the guests left, I went to bed. |    |
| (g) Actual spoken words: I lost my keys. | The past perfect is commonly used in reported speech.** | If the actual spoken words use the simple past, the past perfect is often used in reporting those words, as in (h). Common reporting verbs include tell (someone), say, find out, learn, and discover. |
| (h) Reported words: Jenny said that she had lost her keys. |    |
| (i) Written: Bill felt great that evening. Earlier in the day, Annie had caught one fish, and he had caught three. They had had a delicious picnic near the lake and then had gone swimming again. It had been a nearly perfect vacation day. | The past perfect is often found in more formal writing such as fiction. In (i), the fiction writer uses the simple past to say that an event happened (Bill felt great), and then uses the past perfect to explain what had happened before that event. |
|    |    |    |
| (j) I'd finished. You'd finished. We'd finished. They'd finished. She'd finished. He'd finished. It'd finished. | Had is often contracted with personal pronouns in informal writing.

Exercise 4. Pronunciation. (Chart 4-1)
Practice pronouncing contractions with will.

1. Bob will be here soon.  
→ Bob'll be here soon.  
2. I'll come. He'll come. You'll come.  
3. She'll help us. They'll help us too.  
4. I'm sure we'll do well on the test.  
5. It'll probably rain tomorrow.  
6. The weather will be hot in August.  
7. Mary will come tomorrow.  
8. Bill will be here too.  
9. The children will be home at 3:00.  
10. Who will be at the meeting?  
11. Where will you be around five?  
12. How long will Tom be here?  
13. Nobody will recognize you in that wig.  
14. That will be interesting.
Exercise 8. Warm-up. (Chart 4-2)
Read the sentences and answer the questions.

a. It's going to rain tomorrow.
b. I'm going to paint the house next week.
c. Here. I'll help you carry that box. It looks heavy.
d. It will be cloudy this weekend.

1. Which sentence expresses a prior plan? ___
2. Which sentences are predictions? ___ and ___
3. Which sentence expresses willingness? ___

<table>
<thead>
<tr>
<th>4-2 Will vs. Be Going To</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Prediction</strong></td>
</tr>
</tbody>
</table>
| (a) According to the weather report, it **will be** cloudy tomorrow.  
(b) According to the weather report, it **is going to be** cloudy tomorrow.  |
| **Will and be going to** mean the same when they make **predictions** about the future (**prediction** = a statement about something the speaker thinks will be true or will occur in the future).  
Examples (a) and (b) have the same meaning. |
| **Prior Plan**            |
| (c) —Why did you buy this paint?  
—I'm going to paint my bedroom tomorrow.  |
| **Be going to** (but not **will**) is used to express a **prior plan** (i.e., a plan made before the moment of speaking).*  
In (c): The speaker already has a plan to paint his/her bedroom. |
| **Willingness**           |
| (d) —The phone's ringing.  
—I'll get it.  
(e) —How old is Aunt Agnes?  
—I don't know. She **won't** tell me.  
(f) The car **won't start**. Maybe the battery is dead.  |
| **Will** (but not **be going to**) is used to express **willingness**.  
In this case, **will** expresses a decision the speaker makes at the moment of speaking.  
In (d): The speaker decides to answer the phone at the immediate present moment; she/he does not have a prior plan.  
**Will not**/**won't** can express **refusal**, as in (e) with a person or in (f) with an inanimate object. |

*Compare:
Situation 1:  
A: Are you busy this evening?  
B: Yes. I'm going to meet Jack at the library at seven. We're going to study together.  
In Situation 1, only **be going to** is possible. The speaker has a prior plan, so he uses **be going to**.
Situation 2:  
A: Are you busy this evening?  
B: Well, I really haven't made any plans. I'll eat (or I'm going to eat) dinner, of course. And then I'll probably watch (or I'm probably going to watch) TV for a little while.  
In Situation 2, either **will** or **be going to** is possible. Speaker B has not planned his evening. He is "predicting" his evening (rather than stating any prior plans), so he may use either **will** or **be going to**.

Future Time 63
Exercise 9. Looking at grammar. (Chart 4-2)
Discuss the italicized verbs in these short conversations. Decide if the speakers are expressing
(a) predictions,
(b) decisions they are making at the moment of speaking (willingness), or
(c) plans they made before the moment of speaking.

2. A: Masako's such a creative artist. And she's so patient with children.
   B: She'll be very successful as an elementary art teacher.

3. A: We're going to go out to dinner in a few minutes. Do you want to join us?
   B: Sure. Give me just a minute. I'll grab my coat.

   B: I'm not sure. I'll look it up for you.

7. The light bulb is burned out. I'll get a new one from the supply room. prediction plan willingness

8. I'm going to the bookstore. Do you want to go with me? prediction plan willingness
Exercise 11. Looking at grammar. (Chart 4-2)

Complete the sentences with be going to if you think the speaker is expressing a prior plan. If you think she/he has no prior plan, use will. Use won’t if the speaker is expressing refusal.

Listen to the sentences and choose the expected response (a. or b.).

1. a. I’m going to work at a summer resort in the mountains.  
   b. I’ll work at a summer resort in the mountains.

2. a. Sure. I’m going to drop it off on my way to work.

Exercise 13. Warm-up. (Chart 4-3)

1. After I leave this class, I’m going to ____________________________ .

2. As soon as I get home tonight, I’ll ____________________________ .

3. When I finish my English studies, I’m going to ____________________________ .

*When be going to expresses a prior plan, it is often also possible to use the present progressive with no change in meaning. See Chart 4-2, p. 63. There is no difference in meaning between these sentences:  
   I am going to meet Larry at Alice’s Restaurant at six.  
   I am meeting Larry at Alice’s Restaurant at six.
### Expressing the Future in Time Clauses

<table>
<thead>
<tr>
<th>Example</th>
<th>Explanation</th>
</tr>
</thead>
</table>
| (a) Bob will come soon. *When Bob comes,* we will see him. | In (a): *When Bob comes* is a time clause.* \( \text{when} + \text{subject} + \text{verb} = \text{a time clause}\)  
When the meaning of the time clause is future, the **simple present** tense is used. *Will* or *be going to* is not used in the time clause.  
A time clause begins with such words as *when, before, after, as soon as, until,* and *while* and includes a subject and a verb. The time clause can come either at the beginning of the sentence or in the second part of the sentence:  
*When he comes,* we’ll see him.  
Or  
We’ll see him *when he comes.*  
Notice: A comma is used when the time clause comes first in a sentence. |
| (b) Linda is going to leave soon. *Before she leaves,* she is going to finish her work. | Sometimes the *present progressive* is used in a time clause to express an activity that will be in progress in the future, as in (f). |
| (c) I will get home at 5:30. *After I get home,* I will eat dinner. | Occasionally, the *present perfect* is used in a time clause, as in (h). Examples (g) and (h) have the same meaning. The present perfect in the time clause emphasizes the completion of one act before a second act occurs in the future. |
| (d) The taxi will arrive soon. *As soon as it arrives,* we’ll be able to leave for the airport. |  |
| (e) They are going to come soon. *I’ll wait here until they come.* |  |
| (f) *While I am traveling in Europe next year,* I’m going to save money by staying in youth hostels. |  |
| (g) I will go to bed *after I finish my work.* |  |
| (h) I will go to bed *after I have finished my work.* |  |

*A time clause* is an adverb clause. See Charts 17-1 (p. 365) and 17-2 (p. 368) for more information.

---

**Exercise 14. Looking at grammar. (Chart 4-3)**

Draw brackets around the time clause in each sentence and underline its verb. Identify and discuss the use of verb tenses.

1. We’ll be here [when you arrive tomorrow.]
2. After the rain stops, I’m going to sweep the front porch.
3. I’m going to start making dinner before my wife gets home from work today.
4. I’m going to wait right here until Sonya comes.

6. Right now the tide is low, but when the tide comes in, the ship will leave the harbor.
7. While I’m driving to work tomorrow, I’m going to listen to my Greek language CD.

**Exercise 15. Looking at grammar. (Chart 4-3)**

Use *will*/*be going to* or the simple present. (In this exercise, both *will* and *be going to* are possible when a future verb is necessary, with little or no difference in meaning.)

1. Pete is going to leave in half an hour. He (*finish*) will finish / *is going to finish* all of his work before he (*leave*) leaves.
2. I’m going to eat lunch at 12:30. After I (eat) ________________, I (take, probably) ________________ a nap.

3. I’ll get home around six. When I (get) ________________ home, I (give) ________________ Sharon a call.

8. I (listen) ________________ to an English language course while I (sleep) ________________ tonight. Do you think it will help me learn English faster?

Exercise 16. Let’s talk: interview. (Chart 4-3)

Make questions using the given words. Ask two students each question. Share some of their answers with the class. Use be going to for the future verb.

1. What \ you \ do \ after \ you \ wake up \ tomorrow?
2. What \ you \ do \ as soon as \ class \ end \ today?
3. Before \ you \ go \ to bed \ tonight \ what \ you \ do?
4. What \ you \ do \ when \ you \ have \ free time \ this weekend?
5. When \ you \ finish \ school \ what \ you \ do?

Exercise 17. Warm-up. (Chart 4-4)

Decide if each sentence has a present or future meaning. What do you notice about the verb tense in each sentence?

1. I’m meeting a friend for dinner tonight. present meaning future meaning
2. We’re taking a flight at midnight. present meaning future meaning
3. Class starts in ten minutes. present meaning future meaning
## Present Progressive

<table>
<thead>
<tr>
<th>Example</th>
<th>Sentence</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a)</td>
<td>My wife has an appointment with a doctor. She is seeing Dr. North next Tuesday.</td>
</tr>
<tr>
<td>(b)</td>
<td>Sam has already made his plans. He is leaving at noon tomorrow.</td>
</tr>
<tr>
<td>(c)</td>
<td>— What are you going to do this afternoon? — After lunch, I am meeting a friend of mine. We are going shopping. Would you like to come along?</td>
</tr>
</tbody>
</table>

The **present progressive** may be used to express **future time** when the idea of the sentence concerns a planned event or definite intention.

**Compare:** A verb such as *rain* is not used in the present progressive to indicate future time because rain is not a planned event.

A future meaning for the present progressive tense is indicated either by future time words in the sentence or by the context.

## Simple Present

<table>
<thead>
<tr>
<th>Example</th>
<th>Sentence</th>
</tr>
</thead>
<tbody>
<tr>
<td>(d)</td>
<td>The museum opens at 10:00 tomorrow morning.</td>
</tr>
<tr>
<td>(e)</td>
<td>Classes begin next week.</td>
</tr>
<tr>
<td>(f)</td>
<td>John’s plane arrives at 6:05 P.M. next Monday.</td>
</tr>
</tbody>
</table>

The **simple present** can also be used to express future time in a sentence concerning events that are on a definite schedule or timetable. These sentences usually contain future time words. Only a few verbs are used in this way: e.g., open, close, begin, end, start, finish, arrive, leave, come, return.

Complete the sentences with the words in parentheses. Use any appropriate tense.

Almost every part of the world (experience) ___________ an earthquake in recent years, and almost every part of the world (experience) ___________ earthquakes in the years to come. Since the ancient Chinese (begin) ___________ to keep records several thousand years ago, more than 13 million earthquakes (occur) ___________ worldwide by some estimates. What (cause) ___________ earthquakes? Throughout time, different cultures (develop) ___________ myths to explain these violent earth movements.

From India comes the story of six strong elephants who (hold) ___________ up the earth on their heads. Whenever one elephant (move) ___________ its head, the earth trembles.
According to a Japanese myth, a playful catfish lives in the mud under the earth. Whenever it feels like playing, it waves its fat tail around in the mud. The result? Earthquakes.

Nowadays, although scientists know more about the causes of earthquakes, they still cannot prevent the terrible damage. One of the strongest quakes in the last hundred years happened in Anchorage, Alaska, on March 24, 1964, at about six o’clock in the evening. When the earthquake struck that evening, many families sat down to eat dinner. People in the city found suddenly themselves in the dark because most of the lights in the city went out when the earthquake occurred. Many people died instantly when tall buildings collapsed and sent tons of brick and concrete crashing into the streets. When the next earthquake occurs? No one really knows for sure.

Interestingly enough, throughout history animals often help people predict earthquakes shortly before they happen. At present, some scientists study catfish because catfish swim excitedly just before an earthquake.

According to some studies, snakes, monkeys, and rodents appear to be sensitive to the approach of violent movement in the earth’s surface. Some animals seem to know a great deal more than humans about when an earthquake will occur.

In recent years, scientists develop many extremely sensitive instruments. Perhaps someday the instruments be able to give us a sufficiently early warning so that we can be waiting calmly in a safe place when the next earthquake strikes.

6-4 Subject-Verb Agreement: Using There + Be

(a) There is a fly in the room.
(b) There are three windows in this room.

The subject follows be when there is used.
In (a): The subject is a fly. (singular)
In (b): The subject is three windows. (plural)

At the end of the discussion time, the leader of each group will report on the opinions of his or her group using expressions of quantity to make generalizations (e.g., Most of us believe that . . . OR Only a few of us think that . . .). The number of topics you choose to discuss depends on the time available.

Sample topics:

Modal auxiliaries generally express speakers’ attitudes. For example, modals can express that a speaker feels something is necessary, advisable, permissible, possible, or probable; and, in addition, they can convey the strength of those attitudes. Each modal has more than one meaning or use. See Chart 10-10, p. 204–205, for a summary overview of modals.

Modals are followed immediately by the simple form of a verb.

**CORRECT:** She can do it.

An infinitive (to + the simple form of a verb) is used in these similar expressions.

<th></th>
</tr>
</thead>
<tbody>

4. I’m suppose to be at the meeting. I suppose* I’d better go.

5. Where have you been? You suppose be here an hour ago!

*Compare: He is supposed to = He is expected to.
I suppose = I guess, I think, I believe.
### 9-9 Obligation: Be Supposed To

| (a) | The game is supposed to begin at 10:00. | **Be supposed to** expresses the idea that someone (I, we, they, the teacher, lots of people, my father, etc.) expects something to happen. **Be supposed to** often expresses expectations about scheduled events, as in (a), or correct procedures, as in (b). |
| (b) | The committee is supposed to vote by secret ballot. | **Be supposed to** also expresses expectations about behavior. The meaning is the same in (c) and (d): Someone else expects (requests or requires) certain behavior. |
| (c) | I am supposed to go to the meeting. My boss told me that he wants me to attend. | **Be supposed to** also expresses expectations about behavior. The meaning is the same in (c) and (d): Someone else expects (requests or requires) certain behavior. |
| (d) | The children are supposed to put away their toys before they go to bed. | **Be supposed to** also expresses expectations about behavior. The meaning is the same in (c) and (d): Someone else expects (requests or requires) certain behavior. |
| (e) | Jack was supposed to call me last night. I wonder why he didn’t. | **Be supposed to** in the past (was/were supposed to) expresses unfulfilled expectations. The meaning in (e): I expected Jack to call, but he didn’t. |

### Exercise 31. Let’s talk. (Chart 9-9)

Answer the questions in complete sentences. Use **be supposed to**. Work in pairs, in small groups, or as a class.

**Example:**

**Speaker A (book open):** If you’re driving and a traffic light turns red, what are you supposed to do?

**Speaker B (book closed):** You’re supposed to come to a complete stop.*

1. What are you supposed to do if you’re involved in a traffic accident?
2. What are you supposed to do prior to takeoff in an airplane?
3. What are some things athletes in training are supposed to do, and some things they’re not supposed to do?
4. If you’re driving and an ambulance with flashing lights and blaring sirens comes up behind you, what are you supposed to do?

*(Change roles if working in pairs).*

5. Can you think of something you were supposed to do yesterday (or sometime in the past) but didn’t do?
6. What are we supposed to be doing right now?
7. Tell me about any job you’ve had. What were you supposed to do on a typical day?
8. In the place you live or work, who is supposed to do what? In other words, what are the duties or responsibilities of the people who live or work with you?

---

*Note the use of impersonal you. See Chart 8-5, p. 147.*
Exercise 32. Looking at grammar. (Charts 9-5 → 9-9)
Which sentence in each pair is stronger?

1. a. You had better wear a seat belt.
   b. You ought to wear a seat belt.

2. a. You must wear a seat belt.

   b. You are supposed to wear a seat belt.

4. a. We are supposed to bring pens.
   b. We have to bring pens.

5. a. We ought to bring pens.
   b. We have got to bring pens.

6. a. We had better bring pens.
   b. We should bring pens.

Exercise 33. Let’s talk or write. (Charts 9-5 → 9-9)
Choose an occupation from the list or any other occupation of your choosing. Make sentences about it using the given verbs.

Example: teacher → A teacher should be very patient.

<table>
<thead>
<tr>
<th>should</th>
<th>have to</th>
<th>be not supposed to</th>
</tr>
</thead>
<tbody>
<tr>
<td>be supposed to</td>
<td>have got to</td>
<td>had better not</td>

Exercise 34. Let’s write or talk. (Charts 9-5 → 9-9)
Choose one (or more) of the topics for writing, group discussion, or role-playing. Try to include the words from the given list on the next page.

Example: Pretend that you are the supervisor of a roomful of young children. The children are in your care for the next six hours. What would you say to them to make sure they understood your expectations and your rules, so that they would be safe and cooperative?

→ You should pick up your toys when you are finished playing with them.
→ You have to stay in this room. Do not go outside without my permission.
→ You’re supposed to take a short nap at one o’clock.
Etc.
Topics:
1. Pretend that you are a travel agent and you are helping two students who are traveling abroad for a vacation. You want them to understand the travel arrangements you have made, and you want to explain some of the local customs of the countries they will be visiting.

2. Pretend that you are the supervisor of a café and you are talking to two new employees. You want to acquaint them with their jobs and your expectations.

3. Pretend that you are instructing the person who will watch your three young children while you are out for the evening. They haven’t had dinner, and they don’t like to go to bed when they’re told to.

Exercise 35. Warm-up. (Chart 9-10)
Circle yes if the speaker is expressing an intention or plan; circle no if not. In which of these sentences do you know for sure that the speaker did not complete the plan?

<table>
<thead>
<tr>
<th>INTENTION/PLAN?</th>
<th>1. I am going to call you at 9:00 tomorrow.</th>
<th>yes</th>
<th>no</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2. I was going to call you, but I couldn’t find your phone number.</td>

<td>yes</td>
<td>no</td>
</tr>
<tr>
<td></td>
<td>6. I had planned to talk to my manager today about a raise, but she was out sick.</td>
<td>yes</td>
<td>no</td>
</tr>
</tbody>
</table>
### Exercise 36. Looking at grammar. (Chart 9-10)
Restate each sentence in two other ways.

**Example:** I was going to call you, but I couldn’t get cell phone reception.
→ I had planned to call you, but I couldn’t get cell phone reception.
→ I was intending to call you, but I couldn’t get cell phone reception.

1. I was going to stay home on my day off, but I had too much work at the office.
2. I was going to surprise you with jewelry for your birthday, but I wasn’t sure what you’d like.
3. I was going to reply to your email right away, but I got distracted by my children.

### Exercise 37. Let’s talk. (Chart 9-10)
Take turns completing the sentences. Work in pairs or small groups. Share some of your answers with the class.

1. I was going to get up early this morning, but . . . .
2. I had intended to meet you at the restaurant, but . . . .
3. I was planning to visit you this weekend, but . . . .
4. I had hoped to see you one more time before you left, but . . . .
5. We had thought about inviting the Smiths to our party, but . . . .
6. I was going to call you on your birthday, but . . . .
7. We were hoping to see that movie in a theater, but . . . .

### Exercise 38. Warm-up. (Chart 9-11)
Imagine that next Tuesday you have a holiday. You and your roommate are making plans. Read the list of activities. Which ones sound good to you?

**Activities:**
1. Let’s go to a movie.
2. Why don’t we study grammar all day?
3. Let’s go shopping.
4. Why don’t we fly to Paris for lunch?
5. Let’s play video games.
6. Why don’t we clean and do the laundry?
### 9-11 Making Suggestions: Let's, Why Don’t, Shall I/We

| (a) Let’s go to a movie. | let’s = let us  
|-------------------------|------------------  
| Let’s is followed by the simple form of a verb. |
| (b) Let’s not go to a movie.  
| Let’s stay home instead. | Negative form: let’s + not + simple verb  
| Let’s means I have a suggestion for us. |
| (c) Why don’t we go to a movie? | Why don’t is used primarily in spoken English to make a friendly suggestion.  
| (d) Why don’t you come around seven? | The meaning in (c): Let’s go to a movie.  
| In (d): I suggest that you come around seven. |
| (e) Why don’t I give Mary a call? | In (e): Should I give Mary a call? Do you agree with my suggestion?  
| (f) Shall I open the window? Is that okay with you? | When shall is used with I or we in a question, the speaker is usually making a suggestion and asking another person if she/he agrees with this suggestion, as in (f) and (g).  
| The use of shall + I/we is relatively formal and infrequent in American English. |
| (g) Shall we leave at two? Is that okay? | Sometimes shall we? is used as a tag question after let’s, as in (h). More informally, okay? is used as a tag question, as in (i). |

| (h) Let’s go, shall we? |  
| (i) Let’s go, okay? |

#### Exercise 39. In your own words. (Chart 9-11)

Complete the conversations with your own words.

1. A: A new Japanese restaurant just opened downtown. Let’s ___eat there tonight.____
   B: Great idea! I’d like some good sushi.
   A: Why don’t ___you call and make a reservation?___ Make it for about 7:30.
   B: No, let’s ___make it for 8:00.___ I’ll be working until 7:30 tonight.

2. A: I don’t feel like staying home today.
   B: Neither do I. Why don’t ____________________________
   A: Hey, that’s a great idea! What time shall ____________________________
   B: Let’s leave in an hour.

3. A: Shall ____________________________ or ____________________________ first?
   B: Let’s ____________________________ first; then we can take our time over dinner.
   A: Why don’t ____________________________
   B: Good idea.

4. A: Let’s ____________________________ over the weekend.
   The fresh air would do us both good.
   B: I agree. Why don’t ____________________________
   A: No. Sleeping in a tent is too uncomfortable. Let’s ____________________________
   It won’t be that expensive, and we’ll have hot water and all the comforts of home.
Exercise 40. Warm-up. (Chart 9-12)
Read the conversation. Whose suggestion seems stronger, Alice’s or Roberto’s?

<table>
<thead>
<tr>
<th>Carl</th>
<th>Alice</th>
<th>Roberto</th>
</tr>
</thead>
<tbody>
<tr>
<td>Something’s wrong with my bike. How will I get to school tomorrow?</td>
<td>You could take the bus.</td>
<td>You should walk.</td>
</tr>
</tbody>
</table>

**9-12 Making Suggestions: Could vs. Should**

<table>
<thead>
<tr>
<th>Question</th>
<th>Could</th>
<th>Should</th>
</tr>
</thead>
<tbody>
<tr>
<td>What should we do tomorrow?</td>
<td>Could offer suggestions. The meanings in (a) and (b) are similar: The speaker is suggesting a picnic.</td>
<td>Should gives definite advice and is stronger than could. The meaning in (c): I believe it is important for you to do this. This is what I recommend.</td>
</tr>
<tr>
<td>(a) Why don’t we go on a picnic? (b) We could go on a picnic.</td>
<td></td>
<td>In (d), the use of maybe softens the strength of the advice. Could offers suggestions or possibilities.</td>
</tr>
<tr>
<td>(c) You should talk to your teacher. (d) Maybe you should talk to your teacher.</td>
<td></td>
<td>The meaning in (e): I have some possible suggestions for you. It is possible to do this. Or it is possible to do that.*</td>
</tr>
<tr>
<td>(e) I’m having trouble in math class. You could talk to your teacher. Or you could ask Ann to help you with your math lessons. Or I could try to help you.</td>
<td></td>
<td>Should have (past form) gives “hindsight” advice.** The meaning in (f): It was important for you to talk to the teacher, but you didn’t do it. You made a mistake. Could have (past form) offers “hindsight” possibilities.</td>
</tr>
<tr>
<td>(f) I failed my math class. You should have talked to your teacher and gotten some help from her during the term.</td>
<td></td>
<td>The meaning in (g): You had the chance to do this or that. It was possible for this or that to happen. You missed some good opportunities.</td>
</tr>
<tr>
<td>(g) I failed my math class. You could have talked to your teacher. Or you could have asked Ann to help you with your math. Or I could have tried to help you.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

* Might (but not may) can also be used to make suggestions (You might talk to your teacher.) but could is more common.  
** Hindsight refers to looking back at something after it happens.
Exercise 41. Looking at grammar. (Chart 9-12)
Discuss Speaker B's and C's use of *should* and *could*. What are the differences in meaning?

1. A: Ted doesn't feel good. He has a bad stomachache. What do you think he should do?
   B: He *should* see a doctor.
   C: Well, I don't know. He *could* call a doctor. He *could* call Dr. Sung. Or he *could* call Dr. Jones. Or he *could* simply *stay* in bed for a day and hope he feels better tomorrow.

2. A: I need to get to the airport.
   B: You *should* take the airport bus. It's cheaper than a taxi.
   C: Well, you *could* take the airport bus. Or you *could* take a taxi. Maybe Matt *could* take you. He has a car.

3. A: I took a taxi to the airport, and it cost me a fortune.
   B: You *should have taken* the airport bus.
   C: You *could have taken* the airport bus. Or maybe Matt *could have taken* you.

Exercise 42. Let's write: pairwork. (Chapter 9)
Work with a partner. Write a letter to an advice columnist in a newspaper. Make up a personal problem for the columnist to solve. Then give your letter to another pair, who will write an answer.

*Example letter:*

Dear Annie,

My husband and my sister had an argument over a year ago, and they haven't spoken to each other since. My husband accused my sister of insulting him about his baldness. Then he told my sister that her hair looked like straw. He said he'd rather be bald than have that kind of hair. My sister insists on an apology. My husband refuses until she apologizes to him first.

The problem is that I'm planning a graduation party for my daughter. My husband insists that I not invite my sister. I tell him I have to invite her. He says he'll leave the party if my sister walks in the door. My daughter is very close to my sister and very much wants her to come to the celebration.

What should I do? I feel I must include my sister in the graduation party, but I don't want to anger my husband.

Yours truly,
Confused and Torn

*Example response:*

Dear Confused and Torn,

Tell your husband that this party is your daughter's time to have her whole family around her and that you're going to invite your sister to the family celebration. This is certainly a time he has to put his daughter's needs first.

And you should tell both your husband and your sister that it's time to get past their silly argument and act like grownups instead of ten-year-olds. You could offer to serve as an intermediary to get them together to apologize to each other. If you present a reasonable, adult way of handling the problem, they may start behaving like adults. Good luck.

Annie
Chapter 10
Modals, Part 2

Exercise 1. Warm-up. (Chart 10-1)
A man walked into Ramon’s apartment and stole his guitar. The thief accidentally left his hat in the apartment. A policewoman at the scene asks Ramon, “Whose hat is this?” How would he answer her question? Match Ramon’s thoughts in Column A to his statements in Column B.

Column A
1. Ramon thinks the hat looks familiar, but he’s not certain whose it is.
2. Ramon thinks he recognizes the hat. He’s almost sure he knows the owner.
3. Ramon has no doubts. He knows whose hat it is.

Column B
a. “It is Joe Green’s hat.”
b. “It could belong to Joe Green. It might be Al Goldberg’s. Or it may belong to Mr. Perez across the hall.”
c. “It must be Joe Green’s hat.”

10-1 Degrees of Certainty: Present Time

— Why isn’t John in class?  
100% sure: He is sick.
95% sure: He must be sick.
50% sure or less: {He may be sick. He might be sick. He could be sick.}

Degree of certainty refers to how sure we are — what we think the chances are — that something is true. If we are sure something is true in the present, we don’t need to use a modal. For example, if I say, “John is sick,” I am sure; I am stating a fact that I am sure is true. My degree of certainty is 100%.

Must expresses a strong degree of certainty about a present situation, but the degree of certainty is still less than 100%.

In (a): The speaker is saying, “Probably John is sick. I have evidence to make me believe that he is sick. That is my logical conclusion, but I do not know for certain.”

May, might, and could express a weak degree of certainty.

In (b), (c), and (d): The meanings are all the same. The speaker is saying, “Perhaps, maybe,* possibly John is sick. I am only making a guess. I can think of other possibilities.”

*Maybe (one word) is an adverb: Maybe he is sick. May be (two words) is a verb form: He may be sick.
Exercise 2. Looking at grammar. (Chart 10-1)
Complete the sentences by using must or may/might/could with the expressions in the list or your own words.

✓be very proud  fit Jimmy  miss them very much
be at a meeting  have the wrong number

1. A: I’ve heard that your daughter recently graduated from law school and that your son has gotten a scholarship to the state university. You must be very proud of them.
B: We are.

2. A: Hello?
B: Hello. May I speak to Ron?
A: I’m sorry. You might have the wrong number.
   There’s no one here by that name.

B: I don’t know. She might be very much, or maybe she’s in the employee lounge.

4. A: This winter jacket is still in good shape, but Brian has outgrown it. Do you think it would fit one of your sons?
B: Well, it’s probably too small for Danny too, but it could fit.

5. A: How long has it been since you last saw your family?
B: More than a year.
A: You must miss them very much.
Exercise 3. Let's talk. (Chart 10-1)
Make your best guess from the given information. Use must in your answers. Work in pairs, in small groups, or as a class.

Example:
SPEAKER A (book open): Alice always gets the best grades in the class. Why?
SPEAKER B (book closed): She must study hard. / She must be intelligent.

1. The students are yawning. Why?
2. Carol is shivering and has goose bumps. Why?
3. Lisa's stomach is growling. Why?
4. Bob is scratching his arm. Why?

(Change roles if working in pairs.)
5. The teacher is smiling. Why?
6. Mrs. Allen is crying. Why?
7. The fans are jumping up and down and clapping. Why?
8. Don't look at a clock. What time is it?

Exercise 4. Let's talk. (Chart 10-1)
Answer the questions with I don't know + may/might/could.

Example:
SPEAKER A (book open): Amy’s grammar book isn’t on her desk. Where is it?
SPEAKER B (book closed): I don’t know. It may/might/could be in her backpack.

1. (name of a student) isn’t in class today. Where is she/he?
2. Where does (name of a student) live?
3. What do you think I have in my briefcase/pocket/purse?
4. What kind of cell phone does our teacher have?
5. I can’t find my pen. Do you know where it is?
6. How old do you think (someone famous) is?

Exercise 5. Warm-up. (Chart 10-2)
Anna is checking some figures in her business records: 3,456 + 7,843 = 11,389. How certain is Anna in each of the sentences? Is she 100%, 99%, 95%, or 50% sure?

1. At first glance, she says to herself, “Hmmm. That may not be right.”
2. Then she looks at it again and says, “That must not be right. 6 + 3 is 9, but 5 + 4 isn’t 8.”
3. So she says to herself, “That couldn’t be right!”
4. Finally, she adds the figures herself and says, “That isn’t right.”
10-2 Degrees of Certainty: Present Time Negative

| 100% sure: | Sam isn’t hungry. |
| 99% sure: | Sam couldn’t be hungry. |
| 95% sure: | Sam must not be hungry. |
| 50% sure or less: | Sam may not be hungry. |

NOTE: These percentages are approximate.

(a) Sam doesn’t want anything to eat. He isn’t hungry. He told me his stomach is full. I heard him say that he isn’t hungry. I believe him.

In (a): The speaker is sure that Sam is not hungry.

(b) Sam couldn’t/can’t be hungry. That’s impossible. I just saw him eat a huge meal. He has already eaten enough to fill two grown men! Did he really say he’d like something to eat? I don’t believe it.

In (b): The speaker believes that there is no possibility that Sam is hungry (but the speaker is not 100% sure). When used in the negative to show degree of certainty, couldn’t and can’t forcefully express the idea that the speaker believes something is impossible.

(c) Sam isn’t eating his food. He must not be hungry. That’s the only reason I can think of.

In (c): The speaker is expressing a logical conclusion, a “best guess.”

(d) I don’t know why Sam isn’t eating his food. He may not/might not be hungry right now. Or maybe he doesn’t feel well. Or perhaps he ate just before he got here. Who knows?

In (d): The speaker uses may not/might not to mention a possibility.

Exercise 6. Let’s talk. (Charts 10-1 and 10-2)
Answer the questions based on the speakers’ opinions of the given situation.

SITUATION: Tim is talking about Ed and says, “Someone told me that Ed quit his job, sold his house, and moved to an island in the Pacific Ocean.”

OPINIONS: Lucy says, “That may not be true.”
Linda says, “That must not be true.”
Hamid says, “That can’t be true.”
Rob says, “That isn’t true.”

1. Who is absolutely certain?
2. Who is almost certain?
3. Who has an open mind and hasn’t decided?

Exercise 7. Let’s talk. (Chart 10-2)
Complete the sentences with your best guess. Work in pairs, in small groups, or as a class.

1. A: Yuko has flunked every test so far this semester.
   B: She must not . . . → She must not study very hard.

2. A: Who are you calling?
   B: Tarek. The phone is ringing, but there’s no answer.
   A: He must not . . .
3. A: I'm trying to be a good host. I've offered Rosa a glass of water, a cup of coffee or tea, and a soft drink. She doesn't want anything.
   B: She must not . . .

4. A: I offered Mr. Chang some nuts, but he refused them. Then I offered him some candy, and he accepted.
   B: He must not . . .

5. A: Mrs. Garcia seems very lonely to me.
   B: I agree. She must not . . .

Exercise 8. Let's talk: pairwork. (Chart 10-2)
Work with a partner. Give possible reasons for Speaker B's conclusions.

Example: A: Someone is knocking at the door. It might be Mary.
   B: It couldn't be Mary.
   (Reason? Mary is in Moscow. / Mary went to a movie tonight. / Etc.)

1. A: Someone left this wool hat here. I think it belongs to Alex.
   B: It couldn't belong to him. (Reason?)

2. A: Someone told me that Karen is in Norway.
   B: That can't be right. She couldn't be in Norway. (Reason?)

3. A: Look at that big animal. Is it a wolf?
   B: It couldn't be a wolf. (Reason?)

4. A: Someone told me that Marie quit her job.
   B: You're kidding! That can't be true. (Reason?)

Exercise 9. Listening. (Charts 10-1 and 10-2)
Listen to the conversation and write the verbs you hear.

SITUATION: Tom and his young son Billy hear a noise on the roof.

TOM: I wonder what that noise is.

BILLY: It _____________ a bird.

BILLY: Well, some birds do. It _____________ a big bird that's running fast.

TOM: No, I think it _____________ some kind of animal. It _____________ a mouse.

BILLY: It sounds much bigger than a mouse. It _____________ a dragon!

TOM: Son, it _____________ a dragon. We don't have any dragons around here.

They exist only in storybooks.
Exercise 10. Let's talk: pairwork. (Charts 10-1 and 10-2)

Work with a partner. Create a dialogue based on the given situation. Role-play your dialogue for the class or a group of classmates.

SITUATION: You and your friend are at home. You hear a noise. You discuss the noise: What **may** / **might** / **could** / **must** / **may not** / **couldn’t** / **must not** be the cause. Then you finally find out what is going on.

Exercise 11. Warm-up. (Chart 10-3)

Decide which past modal in the list best completes each sentence. One of the modals is **not** appropriate for any of the sentences.

must have left  couldn’t have left  should have left  might have left

SITUATION: Jackie can’t find her sunglasses.

1. Laura thinks it’s possible that Jackie left them on the table at the restaurant. She says, “You ___________ them on the table at the restaurant, but I’m just guessing.”

2. Sergio disagrees. He looked at everything on the table before they left and doesn’t remember seeing her sunglasses there. He thinks it is impossible that Jackie left them there, so he says, “You ___________ them there. I’m sure they are somewhere else. Did you check your purse?”

3. Maya disagrees with Sergio. She remembers seeing the sunglasses on the table, so she says, “You ___________ them there. That’s the only logical explanation I can think of.”
Exercise 12. Looking at grammar. (Chart 10-3)

Use past modals to restate each sentence in parentheses. In some cases, more than one modal may be possible.

SITUATION 1: The doorbell rang, but I was in bed trying to take a nap. So I didn’t get up. I wonder who it was.

1. (Maybe it was a friend.) It ______ may / might / could have been ______ a friend.

2. (It’s not possible that it was my next-door neighbor. He was at work.)
   It ___________________________ my next-door neighbor.

3. (I’m 95% sure it was a delivery person. There was a package outside my door when I got up.)
   It ___________________________ a delivery person.

SITUATION 2: I sent my best friend a birthday present, but she never responded or thanked me. That’s not like her. I wonder why I never heard from her.

4. (She probably never got it. That’s the only reason I can think of for her not responding to me.)
   I believe she ___________________________ it.

5. (My mother thinks it’s possible that it got lost in the mail, but she’s just guessing.)
   My mother thinks it ___________________________ lost in the mail. I guess that’s possible.
Exercise 13. Let’s talk. (Chart 10-3)
Make guesses using past modals.

SITUATION: Dan, David, Dylan, Dick, and Doug are all friends. One of them got engaged last night. Who do you think it is?

1. Dan had a huge argument with his girlfriend last night.  
   → It couldn’t/must not have been Dan because he fought with his girlfriend last night.
2. David met with his girlfriend’s parents two nights ago.
3. Dylan invited his girlfriend to dinner and took a diamond ring with him.
4. Dick is going to wait to get married until he has a better job.
5. Doug isn’t sure if he’s ready for marriage. He thinks he’s a little young to be a husband.

Exercise 14. Let’s talk or write. (Chart 10-3)
Give several answers for each question, orally or in writing.

Picture A
Picture B

11-1 Active vs. Passive

Active: (a) Mary helped the boy.

Passive: (b) The boy was helped by Mary.

In the passive, the object of an active verb becomes the subject of the passive verb: the boy in (a) becomes the subject of the passive verb in (b).

Notice that the subject of an active verb follows by in a passive sentence. The noun that follows by is called the "agent." In (b): Mary is the agent.

Sentences (a) and (b) have the same meaning.

Passive: (c) He is helped by her.
He was helped by her.
He will be helped by her.

Form of the passive: be + past participle

Active: (d) An accident happened.

Passive: (e) (none)

Only transitive verbs (verbs that can be followed by an object) are used in the passive. It is not possible to use intransitive verbs (such as happen, sleep, come, seem, die) in the passive. (See Appendix Chart A-1.)
Exercise 2. Looking at grammar. (Chart 11-1)

<tr>
<td>(a) Rice is grown in India.</td>

<tr>
<td>(b) Our house was built in 1980.</td>

<tr>
<td>(c) This olive oil was imported from Crete.</td>
</tr>
<tr>
<td>(d) My aunt made this rug. (active)</td>
</tr>
<tr>
<td>(e) This rug was made by my aunt. That rug was made by my mother.</td>
</tr>
<tr>
<td>(f) Life on the Mississippi was written by Mark Twain.</td>
</tr>
</tbody>
</table>

Usually the passive is used without a by-phrase. The passive is most frequently used when it is not known or not important to know exactly who performs an action.

In (a): Rice is grown in India by people, by farmers, by someone. It is not known or important to know exactly who grows rice in India.

Examples (a), (b), and (c) illustrate the most common use of the passive, i.e., without the by-phrase.

If the speaker knows who performs an action, usually the active is used, as in (d).

Sometimes, even when the speaker knows who performs an action, he/she chooses to use the passive with the by-phrase in order to focus attention on the subject of a sentence.

In (e): The focus of attention is on two rugs.

In (f): The focus is on the book, but the by-phrase is included because it contains important information.

Exercise 7. Looking at grammar. (Charts 11-1 → 11-3)
Discuss why passive was chosen for these sentences instead of active.

1. My sweater was made in England.
   → The speaker or writer probably uses the passive here because he or she doesn’t know who made the sweater. Using an active sentence (Someone made my sweater in England) wouldn’t add any important information.

2. The new highway will be completed sometime next month.

3. The World Cup soccer games are being televised all over the world this year.

4. This composition was written by Ali. That one was written by Mariko.

5. The Washington Monument is visited by hundreds of people every day.

6. Bananas originated in Asia but now are grown in the tropics of both hemispheres of the world. They were introduced to the Americas in 1516.
Exercise 8. Reading and grammar. (Charts 11-1 → 11-3)
Read the paragraph. Underline the passive verbs. Discuss why the writer chose to use passive rather than active. Answer the questions in complete sentences.

Early Writing Materials

The chief writing material of ancient times was papyrus. It was used in Egypt, Greece, and other Mediterranean lands. Parchment, another writing material that was widely used in ancient times, was made from the skins of animals, such as sheep and goats. After the hair had been removed, the skins were stretched and rubbed smooth to make a writing surface. Paper, the main writing material today, was invented by the Chinese.

Ink has been used for writing and drawing throughout history. No one knows when the first ink was developed. The ancient Egyptians and Chinese made ink from various natural substances such as berries, soot, and tree bark. Through the centuries, thousands of different formulas have been developed for ink. Most ink today is made from synthetic chemicals.

1. Before paper was invented, what materials were used for writing?
2. What was parchment made from?
3. What three things were done to animal skins to make writing material?

Exercise 23. Looking at grammar. (Charts 11-1 → 11-4)
Change the verbs to the passive as appropriate. Discuss why you decided that certain verbs should be in the passive but that others should remain active.

It is used

(1) Paper is a common material. People use it everywhere in the world. Throughout history, people have made it from various plants such as rice and papyrus, but today wood is the chief source of paper. In the past, people made paper by hand, but now machines do most of the work. * Today people make paper from wood pulp by using either a mechanical or a chemical process.

*Whether or not to use the passive in the second half of this sentence is a stylistic choice. Either the active or the passive can appropriately be used. Some writers might prefer the passive so that both halves of the sentence are parallel in structure.
(2) In the mechanical process, someone grinds the wood into small chips. During the grinding, someone sprays it with water to keep it from burning from the friction of the grinder. Then someone soaks the chips in water.

(3) In the chemical process, first someone washes the wood, and then someone cuts it into small pieces in a chipping machine. Then someone cooks the chips in certain chemicals. After someone cooks the wood, someone washes it to get rid of the chemicals.

(4) The next steps in making paper are the same for both the mechanical and the chemical processes. Someone drains the pulp to form a thick mass, bleaches it with chlorine, and then thoroughly washes it again. Next someone puts the pulp through a large machine that squeezes the water out and forms the pulp into long sheets. After the pulp sheets go through a drier and a press, someone winds them onto rolls. These rolls of paper are then ready for use.

(5) The next time you use paper, you should think about its origin and how people make it. And you should ask yourself this question: What would the world be like without paper? If you can imagine how different today's world would be without paper, you will immediately understand how essential paper has been in the development of civilization.

Read about the process and then describe it in your own words. Possible subjects: a candle, a pencil, glass, steel, silk thread, bronze, leather, etc.

12-2 Noun Clauses Beginning with a Question Word

<table>
<thead>
<tr>
<th>Question</th>
<th>Noun Clause</th>
<th>Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>Where does she live?</td>
<td>(a) I don't know where she lives.</td>
<td>In (a): <em>where she lives</em> is the object of the verb <em>know</em>. In a noun clause, the subject precedes the verb. Do not use question word order in a noun clause. Notice: <em>does, did, and do</em> are used in questions but not in noun clauses. See Appendix Chart B-2 for more information about question words and question forms.</td>
</tr>
<tr>
<td>What did he say?</td>
<td>(b) I couldn't hear what he said.</td>
<td></td>
</tr>
<tr>
<td>When do they arrive?</td>
<td>(c) Do you know when they arrive?</td>
<td></td>
</tr>

<td></td>
<td></td>
</tr>
<tr>
<td>Who lives there?</td>
<td>(d) I don't know who lives there.</td>
<td>In (d) and (e): The word order is the same in both the question and the noun clause because <em>who</em> is the subject in both.</td>
</tr>
<tr>
<td>Who is at the door?</td>

<td></td>
</tr>
<tr>
<td>Who are those men?</td>
<td>(f) I don't know who those men are.</td>

<td>Whose house is that?</td>
<td>(g) I wonder whose house that is.</td>
<td></td>
</tr>
<tr>
<td>What did she say?</td>
<td>(h) What she said surprised me.</td>
<td>In (h): <em>What she said</em> is the subject of the sentence. Notice in (i): A noun clause subject takes a singular verb (e.g., <em>is</em>).</td>
</tr>

<td>(i) What they should do is obvious.</td>
<td></td>
</tr>

Exercise 31. Reading comprehension. (Chart 12-5)
Part 1. Read the article.

Canned vs. Fresh: Which Is Better?

Do you avoid eating canned fruits and vegetables because you think they may be less nutritious than fresh fruits and vegetables? Do you think they might be less healthy? For many people, the idea of eating canned fruits or vegetables is really not very appealing, and they would rather buy fresh produce. But what are the differences between canned and fresh produce? Let's take a look at the two.

Many people are surprised to hear that canned food can have as many nutrients as fresh. This is true because the fruits and vegetables are put into the cans shortly after being picked. Because the food is canned so quickly, the nutritional content is locked in. Food in a can will stay stable for two years.
Fresh produce, on the other hand, may need to be transported. This can take up to two weeks. Fresh produce will continue to lose important nutrients until it is eaten. The sooner you can eat fresh produce, the more nutritious it will be.

There are also advantages to some fruits when they are first cooked and then canned. Tomatoes, for instance, have a substance called lycopene. This is a cancer-fighting ingredient that is found in cooked tomatoes. Fresh tomatoes do not have a significant amount of lycopene. It is better to eat tomato sauce from a can rather than fresh tomato sauce if you want to have lycopene in your diet.

Of course, there are disadvantages to canned foods. They tend to have a higher salt and sugar content. People who need to watch their salt or sugar intake should try to find cans low in salt or sugar. Also, because the canning process requires heat, some loss of vitamin C may occur, but most essential nutrients remain stable.

Finally, there is the issue of taste. For many, there is no comparison between the taste of fresh fruits and vegetables versus canned. No matter what the benefits of canning, some people refuse to eat anything that isn’t fresh. How about you? Which do you prefer?

Part II. Read the statements. Circle “T” for true and “F” for false.

1. According to the article, it’s surprising to many people that canned produce can be as nutritious as fresh produce. T F
2. It’s a fact that food in a can will last for two years. T F
3. It’s a well-known fact that canned tomatoes contain a cancer-fighting ingredient. T F
4. That fresh produce and canned produce taste the same is undeniable. T F
5. It’s obvious that the writer believes canned food is better than fresh. T F

Exercise 32. Warm-up. (Chart 12-6)
Read the words in the picture. Then look at the quoted speech below it. Circle the quotation marks. Is the punctuation inside or outside the quotation marks? In item 3, what do you notice about the punctuation?

Watch out! Are you okay? You look like you’re going to fall off that ladder.

1. “Watch out!” Mrs. Brooks said.
2. “Are you okay?” she asked.
3. “You look like you’re going to fall off that ladder,” she said.
Quoted Speech

Quoted speech refers to reproducing words exactly as they were originally spoken. Quotation marks ("...") are used.

### Quoting One Sentence

| (a) She said, "My brother is a student." | In (a): Use a comma after she said. Capitalize the first word of the quoted sentence. Put the final quotation marks outside the period at the end of the sentence. |
| (b) "My brother is a student," she said. | In (b): Use a comma, not a period, at the end of the quoted sentence when it precedes she said. |
| (c) "My brother," she said, "is a student." | In (c): If the quoted sentence is divided by she said, use a comma after the first part of the quote. Do not capitalize the first word after she said. |

### Quoting More Than One Sentence

| (d) "My brother is a student. He is attending a university," she said. | In (d): Quotation marks are placed at the beginning and end of the complete quote. Notice: There are no quotation marks after student. |
| (e) "My brother is a student," she said. "He is attending a university." | In (e): Since she said comes between two quoted sentences, the second sentence begins with quotation marks and a capital letter. |

### Quoting a Question or an Exclamation

| (f) She asked, "When will you be here?" | In (f): The question mark is inside the closing quotation marks. |
| (g) "When will you be here?" she asked. | In (g): Since a question mark is used, no comma is used before she asked. |
| (h) She said, "Watch out!" | In (h): The exclamation point is inside the closing quotation marks. |
| (i) "My brother is a student," said Anna. "My brother," said Anna, "is a student." | In (i): The noun subject (Anna) follows said. A noun subject often follows the verb when the subject and verb come in the middle or at the end of a quoted sentence. |

**NOTE:** A pronoun subject almost always precedes the verb. "My brother is a student," she said.

**VERY RARE:** "My brother is a student," said she.

| (j) "Let's leave," whispered Dave. | Say and ask are the most commonly used quote verbs. |
| (k) "Please help me," begged the unfortunate man. | Some others: add, agree, announce, answer, beg, begin, comment, complain, confess, continue, explain, inquire, promise, remark, reply, respond, shout, suggest, whisper. |
| (l) "Well," Jack began, "it's a long story." | |

*Quoted speech* is also called “direct speech.” *Reported speech* (discussed in Chart 12-7) is also called “indirect speech.”

**In British English, quotation marks are called “inverted commas” and can consist of either double marks (") or a single mark (‘): She said, 'My brother is a student'.

Exercise 43. Let’s write. (Charts 12-1 → 12-7)
Read each dialogue and write a report about it. Your report should include an accurate idea of the speaker’s words, but it doesn’t have to use the exact words.

Example: Jack said, “I can’t go to the game.”
   Tom said, “Oh? Why not?”
   “I don’t have enough money for a ticket,” replied Jack.

Possible written reports:
→ Jack told Tom that he couldn’t go to the game because he didn’t have enough money for a ticket.
→ When Tom asked Jack why he couldn’t go to the game, Jack said he didn’t have enough money for a ticket.
→ Jack said he couldn’t go to the game. When Tom asked him why not, Jack replied that he didn’t have enough money for a ticket.

Write reports for these dialogues.
1. “What are you doing?” Alex asked.

"How much money do you make?" the little boy asked.
"That's impolite too," Mrs. Robinson said.

"Yes," I replied. "There's a show at eight that I've been waiting to see for a long time."
"What is it?" she asked.
"It's a documentary on green sea turtles," I said.
"Why do you want to see that?"
"I'm doing a research paper on sea turtles. I think I might be able to get some good information from the documentary. Why don't you watch it with me?"
"No, thanks," she said. "I'm not especially interested in green sea turtles."

Exercise 44. Check your knowledge. (Charts 12-1 → 12-7)
Correct the errors.

Exercise 45. Let's talk. (Charts 12-1 → 12-7)
Give a one-minute impromptu speech on any topic that interests you (insects, soccer, dogs, etc.). Your classmates will take notes as you speak. Later, in a short paragraph or orally, they will report what you said.

Exercise 46. Let's talk and write. (Charts 12-1 → 12-7)
You and your classmates are newspaper reporters at a press conference. You will all interview your teacher or a person whom your teacher invites to class. Your assignment is to write a newspaper article about the person whom you interviewed.

Take notes during the interview. Write down some of the important sentences so that you can use them for quotations in your article. Ask for clarification if you do not understand something the interviewee has said. It is important to report information accurately.

In your article, try to organize your information into related topics. For example, if you interview your teacher, you might use this outline:

I. General introductory information
II. Professional life
   A. Present teaching duties
   B. Academic duties and activities outside of teaching
   C. Past teaching experience
   D. Educational background
III. Personal life
   A. Basic biographical information (e.g., place of birth, family background, places of residence)
   B. Free-time activities and interests
   C. Travel experiences

This outline only suggests a possible method of organization. You must organize your own article, depending upon the information you have gained from your interview.

When you write your report, most of your information will be presented in reported speech; use quoted speech only for the most important or memorable sentences.

NOTE: When you use quoted speech, be sure you are presenting the interviewee's exact words. If you are simply paraphrasing what the interviewee said, do not use quotation marks.
Exercise 47. Let’s talk and write. (Charts 12-1 → 12-7)
Work in small groups. Discuss one (or more) of the given statements. Write a report of the main points made by each speaker in your group. (Do not attempt to report every word that was spoken.)

In your report, use words such as think, believe, say, remark, and state to introduce noun clauses. When you use think or believe, you will probably use present tenses (e.g., Omar thinks that money is the most important thing in life.). Do you agree with these statements? Why or why not?
1. Money is the most important thing in life.

| The man that I saw him was Mr. Jones. |
| The man I saw him was Mr. Jones. |

Notice in the examples: The adjective clause pronouns are placed at the beginning of the clause.

- In (a): *who* is usually used instead of *whom*, especially in speaking. *Whom* is generally used only in very formal English.
- In (c) and (f): An object pronoun is often omitted (0) from an adjective clause. (A subject pronoun, however, may not be omitted.)
- who(m) = used for people
- which = used for things
- that = used for both people and things

In (g): The pronoun *him* must be removed. It is unnecessary because *who(m), that, or 0* functions as the object of the verb *saw*.

<td>(e)</td>
<td>Scholarships are available for those who need financial assistance.</td>

<tr>
<td>(f)</td>
<td><strong>INCORRECT:</strong> I who am a student at this school come from a country in Asia.</td>
<td>Adjective clauses are almost never used to modify personal pronouns. Native English speakers would not write the sentence in (f). Example (g) is possible, but very formal and uncommon. Example (h) is a well-known saying in which he is used as an indefinite pronoun (meaning &quot;anyone&quot; or &quot;any person&quot;).</td>

2. That’s not the job for you. Only people who speak Russian fluently will be considered for the job at the Russian embassy.

### 13-8 Punctuating Adjective Clauses

General guidelines for the punctuation of adjective clauses:
1. **DO NOT USE COMMAS** if the adjective clause is necessary to identify the noun it modifies.*
2. **USE COMMAS** if the adjective clause simply gives additional information and is not necessary to identify the noun it modifies.**

| (a) The professor who teaches Chemistry 101 is an excellent lecturer. | In (a): No commas are used. The adjective clause is necessary to identify which professor is meant. |
| (b) Professor Wilson, who teaches Chemistry 101, is an excellent lecturer. | In (b): Commas are used. The adjective clause is not necessary to identify Professor Wilson. We already know who he is: he has a name. The adjective clause simply gives additional information. |
| (c) Hawaii, which consists of eight principal islands, is a favorite vacation spot. | GUIDELINE: Use commas, as in (b), (c), and (d), if an adjective clause modifies a proper noun. (A proper noun begins with a capital letter.) |
| (d) Mrs. Smith, who is a retired teacher, does volunteer work at the hospital. | NOTE: A comma reflects a pause in speech. |
| (e) The man I met teaches chemistry. | In (e): If no commas are used, any possible pronoun may be used in the adjective clause. Object pronouns may be omitted. |
| (f) Mr. Lee, whom I met yesterday, teaches chemistry. | In (f): When commas are necessary, the pronoun that may not be used (only who, whom, which, whose, where, and when may be used), and object pronouns cannot be omitted. |

**COMPARE THE MEANING:**

| (g) We took some children on a picnic. The children who wanted to play soccer ran to an open field as soon as we arrived at the park. | In (g): The use of commas means that all of the children wanted to play soccer and all of the children ran to an open field. The adjective clause is used only to give additional information about the children. |
| (h) We took some children on a picnic. The children who wanted to play soccer ran to an open field as soon as we arrived at the park. The others played a different game. | In (h): The lack of commas means that only some of the children wanted to play soccer. The adjective clause is used to identify which children ran to the open field. |

*Adjective clauses that do not require commas are called **essential** or **restrictive** or **identifying**.

**Adjective clauses that require commas are called **nonessential** or **nonrestrictive** or **nonidentifying**. **NOTE:** Nonessential adjective clauses are more common in writing than in speaking.

The History of DOS

As you know, a computer needs to have an operating system in order to run programs. When most people think about the first operating systems that were developed for the personal computer, Microsoft or Bill Gates may come to mind. Actually, the truth is somewhat different.

In the late 1970s, there was a man in Seattle named Tim Paterson who worked for a company that was called Seattle Computer. He was a computer programmer and needed an operating system for his computer. Paterson got tired of waiting for another company to create one and decided to develop his own program. He called it QDOS, which meant “quick and dirty operating system.” It took him about four months to develop it.

At the same time, Microsoft was quietly looking for an operating system to run a personal computer that I.B.M. was developing. Microsoft saw the program that Tim had written and in 1980, paid him $25,000 for a license for DOS. A year later they paid another $50,000 to acquire the rights. It became known as the Microsoft disk operating system (MS-DOS), and the rest is history. Microsoft and Bill Gates became very successful using Paterson’s operating system.

Animals and Earthquakes

animals can predict earthquakes has been widely debated for hundreds of years. In fact, as far back as 373 B.C., villagers hundreds of animals deserted the Greek town of Helice a few days before an earthquake destroyed it. There are other interesting phenomena.

For example, before an earthquake, dogs may begin barking or howling for no reason; chickens might stop laying eggs; and some pets will go into hiding.

In Asia in 2004, many animals accustomed to being on the beach in the early morning refused to go there the morning of the big tsunami. In Thailand, a herd of buffalo on a beach noticed or heard made them run to the top of a hill before the tsunami was anywhere in sight. The villagers them were saved.
What causes this strange behavior in animals? One theory can sense the earth move before people can. There are vibrations deep in the earth before an earthquake can be detected. Another idea the energy in the air changes animals are disturbed by these changes.

Some scientists dismiss these ideas, while others they are worth researching further. Those scientists witnessed this strange animal behavior animals are far more sensitive to subtle changes in the earth than people are studying their behavior can be useful in the prediction of earthquakes.

In (f): I heard the singing from beginning to end. It was not in progress when I first heard it.

16-4 Separating Independent Clauses with Periods; Connecting Them with And and But

(a) It was raining hard. There was a strong wind.
(b) INCORRECT PUNCTUATION: It was raining hard, there was a strong wind.

Example (a) contains two independent clauses (i.e., two complete sentences).
PUNCTUATION:
A period,* NOT A COMMA, is used to separate two independent clauses. The punctuation error in (b) is called a "run-on sentence."

In spoken English, a pause, slightly longer than a pause for a comma, separates the two sentences.

(c) It was raining hard, and there was a strong wind.
(d) It was raining hard. And there was a strong wind.
(e) It was raining hard and there was a strong wind.
(f) It was late, but he didn't care.
(g) It was late. But he didn't care.

And and but (coordinating conjunctions) are often used to connect two independent clauses.
PUNCTUATION:
Usually a comma immediately precedes the conjunction, as in (c) and (f).

In informal writing, a writer might choose to begin a sentence with a conjunction, as in (d) and (g).

In a very short sentence, a writer might choose to omit the comma in front of and, as in (e). (Omitting the comma in front of but is rare.)

*In British English, a period is called a “full stop.”

Examples: When the phone rang, I answered it. (comma used)
I answered the phone when it rang. (no comma used)
Exercise 21. Listening and grammar. (Chart 16-4)

Exercise 23. Let's write. (Chapter 16)

Choose one of the given topics. Write two versions of the same paragraph. The first version should be a draft in which you get your ideas on paper. Then the second version should be a “tightened” revision of the first. Look for places where two or three sentences can be combined into one by using parallel structure. In the second version, use as few words as possible and still communicate your meaning.

Exercise 40. Reading and grammar. (Chapter 17)
Part I. Read the passage about the ways people learn.

How Do People Learn Best?

How do people learn best? There is not one answer because much depends on individual learning styles and needs. Over 300 years ago, however, the noted inventor Benjamin Franklin made some observations regarding learning that still hold true for a great many learners today: “Tell me and I forget. Teach me and I remember. Involve me and I learn.”

Imagine that you are learning how to fold a paper airplane. The person teaching you presents the information verbally. She begins by saying:

Take a piece of paper.
Fold it in half.
Open the paper.
Look at the crease in the middle.
Now take one corner and fold it down along the crease.
The instructions continue this way. How well are you going to learn how to fold a paper airplane?

Now imagine that your instructor is standing before you with paper and gives the directions while folding the paper herself. Will this help you more?

Finally, imagine that both you and your instructor have paper. Each time she gives you instructions, both you and she fold your own papers.

Of the three methods, which one will be the most effective in helping you learn how to fold a paper airplane?

It’s interesting to think about Benjamin Franklin’s quote in relation to learning English. How do you learn English best? Is “being told” effective for you? What about “being taught”? How about “being involved”?

Part II. Think about your experiences learning English vocabulary and complete the sentences with your own words. Punctuate carefully.

1. I remember new words best when ________________________________

2. I often forget the meanings of new words unless ________________________________

(b) Modifying phrase: While walking to class, I ran into an old friend.
(c) Adverb clause: Before I left for work, I ate breakfast.
(d) Modifying phrase: Before leaving for work, I ate breakfast.

(e) Change possible: While I was sitting in class, I fell asleep.
While sitting in class, I fell asleep.

(f) Change possible: While Ann was sitting in class, she fell asleep. (clause)
While sitting in class, Ann fell asleep.

(g) No change possible: While the teacher was lecturing to the class, I fell asleep.*

(h) INCORRECT: While watching TV last night, the phone rang.

In Chapter 13, we discussed changing adjective clauses to modifying phrases. (See Chart 13-11, p. 294.) Some adverb clauses may also be changed to modifying phrases, and the ways in which the changes are made are the same:

- If there is a be form of the verb, omit the subject of the dependent clause and be verb, as in (b). OR
- If there is no be form of a verb, omit the subject and change the verb to -ing, as in (d).

An adverb clause can be changed to a modifying phrase only when the subject of the adverb clause and the subject of the main clause are the same. A modifying adverbial phrase that is the reduction of an adverb clause modifies the subject of the main clause.

No reduction (i.e., change) is possible if the subjects of the adverb clause and the main clause are different, as in (g).

In (h): While watching is called a “dangling modifier” or a “dangling participle,” i.e., a modifier that is incorrectly “hanging alone” without an appropriate noun or pronoun subject to modify.

*While lecturing to the class, I fell asleep means “While I was lecturing to the class, I fell asleep.”

The First Telephone

Alexander Graham Bell, a teacher of the deaf in Boston, invented the first telephone. One day in 1875, while running a test on his latest attempt to create a machine that could carry voices, he accidentally spilled acid on his coat. Naturally, he called for his assistant, Thomas A. Watson, who was in another room. Bell said, “Mr. Watson, come here. I want you.” Upon hearing words coming from the machine, Watson immediately realized that their experiments had at last been successful. He rushed excitedly into the other room to tell Bell that he had heard his words over the machine.

After successfully testing the new machine again and again, Bell confidently announced his invention to the world. For the most part, scientists appreciated his accomplishment, but the general public did not understand the revolutionary nature of Bell’s invention. Believing the telephone was a toy with little practical application, most people paid little attention to Bell’s announcement.
Part II. Read the statements. Circle “T” for true and “F” for false.

1. Bell was testing a machine when Watson made a discovery. T F
2. Watson heard words coming from the machine. T F

19-2 Cause and Effect: Using *Therefore, Consequently, and So*

| (a)  | Al failed the test because he didn't study. |
| (b)  | Al didn't study. *Therefore*, he failed the test. |
| (c)  | Al didn't study. *Consequently*, he failed the test. |
| (d)  | Al didn't study. *Therefore*, he failed the test. |
| (e)  | Al didn't study. He, *therefore*, failed the test. |
| (f)  | Al didn't study. He failed the test, *therefore*. |

**Positions of a Transition:**

- **transition** + **S** + **V** (+ rest of sentence)
- **S** + **transition** + **V** (+ rest of sentence)
- **S** + **V** (+ rest of sentence) + **transition**

| (g)  | Al didn't study, *so* he failed the test. |

Examples (a), (b), and (c) have the same meaning. *Therefore* and *consequently* mean "as a result." In grammar, they are called *transitions* (or *conjunctive adverbs*). Transitions connect the ideas between two sentences. They are used most commonly in formal written English and rarely in spoken English.

A transition occurs in the second of two related sentences. Notice the patterns and punctuation in the examples. A period (not a comma) is used at the end of the first sentence. The transition has several positions in the second sentence. The transition is separated from the rest of the sentence by commas.

In (g): *So* is used as a *conjunction* between two independent clauses. It has the same meaning as *therefore*.

*So* is common in both formal written and spoken English. A comma usually precedes *so* when it connects two sentences, as in (g).

*A semicolon is also possible in this situation. See the footnote to Chart 19-3.*

### Exercise 6. Looking at grammar. (Chart 19-2)

Rewrite the sentence with the given words. Punctuate carefully.

6. **transition:** The weather was cold she wore a coat therefore.
7. **conjunction:** The weather was cold so she wore a coat.

*A semicolon (;) may be used instead of a period between the two independent clauses.

It was hot; therefore, we went swimming.
It was hot; we, therefore, went swimming.
It was hot; we went swimming, therefore.

In general, a semicolon can be used instead of a period between any two sentences that are closely related in meaning: Peanuts are not nuts; they are beans. Notice that a small letter, NOT a capital letter, immediately follows a semicolon.

19-5 Expressing Purpose: Using So That

(a) I turned off the TV in order to enable my roommate to study in peace and quiet.

(b) I turned off the TV so that my roommate could study in peace and quiet.

In order to expresses purpose. (See Chart 15-1, p. 331.)
In (a): I turned off the TV for a purpose. The purpose was to make it possible for my roommate to study in peace and quiet.

So That + Can or Could

(c) I’m going to cash a check so that I can buy my textbooks.

So that also expresses purpose.* It expresses the same meaning as in order to. The word “that” is often omitted, especially in speaking.
So that is often used instead of in order to when the idea of ability is being expressed. Can is used in the adverb clause for a present/future meaning.
In (c): so that I can buy = in order to be able to buy
Could is used after so that in past sentences, as in (d).**

So That + Will / Would or Simple Present

(e) I’ll take my umbrella so that I won’t get wet.

(f) Yesterday I took my umbrella so that I wouldn’t get wet.

(g) I’ll take my umbrella so that I don’t get wet.

In (e): so that I won’t get wet = in order to make sure that I won’t get wet
Would is used in past sentences, as in (f).
In (g): It is sometimes possible to use the simple present after so that in place of will; the simple present expresses a future meaning.

*Note: In order that has the same meaning as so that but is less commonly used.
Example: I turned off the TV in order that my roommate could study in peace and quiet.
Both so that and in order that introduce adverb clauses. It is unusual but possible to put these adverb clauses at the beginning of a sentence: So that my roommate could study in peace and quiet, I turned off the TV.

**Also possible but less common: the use of may or might in place of can or could (e.g., I cashed a check so that I might buy my textbooks.).

Exercise 17. Looking at grammar. (Chart 19-5)
Combine each set of ideas by using so (that).

1. Please turn down the radio. I want to be able to get to sleep.

Exercise 35. Reading. (Chart 19-9)

Part I. Read the passage comparing optimists and pessimists.

Optimists vs. Pessimists

Have you ever heard the expression that a glass is half full or half empty? If not, imagine that you are looking at a glass that is filled exactly halfway with liquid. Now, is the glass half full or half empty to you? People who say it is half full are called optimists, while people who say it is half empty are called pessimists. In simple terms, optimists see the best in the world, while pessimists see the worst.

One of the clearest ways to see the differences between the two is to look at the way optimists and pessimists explain events. When something bad happens, optimists tend to see the event as a single event which does not affect other areas of their lives. For example, Sarah is an optimistic person. When she gets a low grade on a test, she will say something like this to herself: "Oh well, that was one test I didn’t do well on. I wasn’t feeling well that day. I have another test in a few weeks. I’ll do better on that one.”

Pessimists, on the other hand, will feel that an event is just one of a string of bad events affecting their lives, and that they’re somehow the cause of it. Let’s take a look at Susan. She is a pessimist. When she gets a low grade on a test, she might say: “I failed again. I never do well on tests. I’m stupid. I should just quit trying.” And when something does go well for Susan, she often attributes her success to luck. She may say, “I was just lucky that time,” and she doesn’t expect to do well again. While optimists don’t see themselves as failures, pessimists do.

Research has shown that optimism can be a learned trait and that, despite their upbringing, people can train themselves to respond to events in more positive terms. For example, Paul has a tendency to react negatively to events. The first thing he has to do is become conscious of that behavior. Once he identifies how he is reacting, he can reframe his thoughts in more positive terms, as Sarah did when she failed the test. As Paul begins to do more of this, he forms new patterns of response, and over time these responses become more automatic. Gradually he can develop a more positive outlook on life.

What about you? How do you see life? Is the glass half full or half empty?

Part II. Complete the sentences with information from the reading.

1. Optimists think positively about life, while . . . .
2. An optimist may do poorly on a test; nevertheless, . . . .
3. Things sometimes go well for a pessimist; however, . . . .
4. Pessimists see themselves as failures; on the other hand, . . . .
5. Optimists don’t see a single event affecting other areas of their lives; consequently, . . . .
6. Optimists see the best in the world; therefore, . . . .

Conditional verbs are frequently used following otherwise.

UNIT A: Basic Grammar Terminology

A-1 Subjects, Verbs, and Objects

Almost all English sentences contain a subject (S) and a verb (V). The verb may or may not be followed by an object (O).

<table>
<thead>
<tr>
<th>(a)</th>
<th>S</th>
<th>V</th>
<th>O</th>
</tr>
</thead>
<tbody>
<tr>
<td>'Birds'</td>
<td>'fly.'</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(noun)</td>
<td>(verb)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

VERBS: Verbs that are not followed by an object, as in (a) and (b), are called "intransitive verbs."
Common intransitive verbs: agree, arrive, come, cry, exist, go, happen, live, occur, rain, rise, sleep, stay, walk.

Verbs that are followed by an object, as in (c) and (d), are called "transitive verbs."
Common transitive verbs: build, cut, find, like, make, need, send, use, want.

Some verbs can be either intransitive or transitive.
Intransitive: A student studies.
Transitive: A student studies books.

SUBJECTS AND OBJECTS: The subjects and objects of verbs are nouns (or pronouns).
Examples of nouns: person, place, thing, John, Asia, pen, information, appearance, amusement.

A-2 Adjectives

Adjectives describe nouns. In grammar, we say that adjectives modify nouns. The word modify means "change a little." Adjectives give a little different meaning to a noun: intelligent student, lazy student, good student.

Examples of adjectives: young, old, rich, beautiful, brown, French, modern.

An adjective is neither singular nor plural. A final -s is never added to an adjective.

<thead>
<tr>
<th>(a)</th>

<tr>
<td></td>
<td>(adjective) (noun)</td>
</tr>
</tbody>
</table>

(c) I saw some beautiful pictures.
INCORRECT: beautiful s pictures

Examples of adjectives: young, old, rich, beautiful, brown, French, modern.
A-3 Adverbs

(a) He walks quickly. (adverb)
Adverbs modify verbs. Often they answer the question “How?”
In (a): How does he walk? Answer: Quickly.
Adverbs are often formed by adding -ly to an adjective.
Adjective: quick
Adverb: quickly

(b) She opened the door quietly. (adverb)

(c) I am extremely happy. (adverb) (adjective)
Adverbs are also used to modify adjectives, i.e., to give information about adjectives, as in (c).

(d) Ann will come tomorrow. (adverb)
Adverbs are also used to express time or frequency. Examples: tomorrow, today, yesterday, soon, never, usually, always, yet.

MIDSENTENCE ADVERBS:
(e) Ann always comes on time.
(f) Ann is always on time.
(g) Ann has always come on time.
(h) Does she always come on time?
Some adverbs may occur in the middle of a sentence. Midsentence adverbs have usual positions; they
• come in front of simple present and simple past verbs (except be), as in (e);
• follow be (simple present and simple past), as in (f);
• come between a helping verb and a main verb, as in (g).
In a question, a midsentence adverb comes directly after the subject, as in (h).

S V PREP O of PREP
(a) The student studies in the library. (noun)
An important element of English sentences is the prepositional phrase. It consists of a preposition (PREP) and its object (O). The object of a preposition is a noun or pronoun.
In (a): in the library is a prepositional phrase.

S V O PREP O of PREP
(b) We enjoyed the party at your house. (noun)

(c) We went to the zoo in the afternoon. (Place) (Time)
In (c): In most English sentences, “place” comes before “time.”

(d) In the afternoon, we went to the zoo.

A-5 The Verb *Be*

(a) John *is* a student. 
(b) John *is* intelligent. 
(c) John *was* at the library. 
(d) Mary *is* writing a letter. 
(e) They *were* listening to some music. 
(f) That letter *was* written by Alice.

A sentence with *be* as the main verb has three basic patterns:
- In (a): *be* + a noun
- In (b): *be* + an adjective
- In (c): *be* + a prepositional phrase

*Be* is also used as an auxiliary verb in progressive verb tenses and in the passive.

In (d): *is* = auxiliary; *writing* = main verb

A-6 Linking Verbs

(a) The soup *smells* good. 
(b) This food *tastes* delicious. 
(c) The children *feel* happy. 
(d) The weather *became* cold.

Other verbs like *be* that may be followed immediately by an adjective are called "linking verbs." An adjective following a linking verb describes the subject of a sentence.*

Common verbs that may be followed by an adjective:
- *feel, look, smell, sound, taste*
- *appear, seem*
- *become* (and *get, turn, grow* when they mean "become")

*Compare:
1. *The man looks angry.* → An adjective *(angry)* follows *look*. The adjective describes the subject *(the man).* *Look* has the meaning of "appear."
2. *The man looked at me angrily.* → An adverb *(angrily)* follows *look at*. The adverb describes the action of the verb. *Look at* has the meaning of "regard, watch."

Ann *is* at the laundromat. 
She *looks* very busy.
**UNIT B: Questions**

### B-1 Forms of Yes/No and Information Questions

A *yes/no question* = a question that may be answered by *yes* or *no*

A: Does he live in Chicago?
B: Yes, he does. or No, he doesn't.

An *information question* = a question that asks for information by using a question word

A: Where does he live?
B: In Chicago.

**Question word order** = *(Question word) + helping verb + subject + main verb*

Notice that the same subject-verb order is used in both yes/no and information questions.

If the verb is in the simple present, use *does* (with *he, she, it*) or *do* (with *I, you, we, they*) in the question. If the verb is simple past, use *did*.

Notice: The main verb in the question is in its simple form; there is no final *-s* or *-ed*.

If the verb has an auxiliary (a helping verb), the same auxiliary is used in the question. There is no change in the form of the main verb.

If the verb has more than one auxiliary, only the first auxiliary precedes the subject, as in (m) and (n).

If the question word is the subject, usual question-word order is not used; *does, do, and did* are not used. The verb is in the same form in a question as it is in a statement.

Statement: *Tom came.*

Question: *Who came?*

Main verb *be* in the simple present (*am, is, are*) and simple past (*was, were*) precedes the subject. It has the same position as a helping verb.

### B-3 Shortened Yes/No Questions

(a) *Going to bed now?* = *Are you going to bed now?*
(b) *Finish your work?* = *Did you finish your work?*
(c) *Want to go to the movie with us?* = *Do you want to go to the movie with us?*

Sometimes in spoken English, the auxiliary and the subject *you* are dropped from a yes/no question, as in (a), (b), and (c).

### B-4 Negative Questions

(a) * Doesn't she live in the dormitory?*
(b) * Does she not live in the dormitory?* (very formal)

In a yes/no question in which the verb is negative, usually a contraction (e.g., *does + not* = *doesn't*) is used, as in (a).

Example (b) is very formal and is usually not used in everyday speech.

Negative questions are used to indicate the speaker's idea (i.e., what she/he believes is or is not true) or attitude (e.g., surprise, shock, annoyance, anger).

(c) Bob returns to his dorm room after his nine o'clock class. Matt, his roommate, is there. Bob is surprised.

   Bob says, "*What are you doing here? Aren't you supposed to be in class now?*"

(d) Alice and Mary are at home. Mary is about to leave on a trip, and Alice is going to take her to the airport.

   Alice says, "*It's already two o'clock. We'd better leave for the airport. Doesn't your plane leave at three?*"

(e) The teacher is talking to Jim about a test he failed. The teacher is surprised that Jim failed the test because he usually does very well.

   The teacher says: "*What happened? Didn't you study?*"

(f) Barb and Ron are riding in a car. Ron is driving. He comes to a corner where there is a stop sign, but he does not stop the car. Barb is shocked.

   Barb says, "*What's the matter with you? Didn't you see that stop sign?*"

In (c): Bob believes that Matt is supposed to be in class now.

*Expected answer: Yes.*

In (d): Alice believes that Mary's plane leaves at three. She is asking the negative question to make sure that her information is correct.

*Expected answer: Yes.*

In (e): The teacher believes that Jim did not study.

*Expected answer: No.*

In (f): Barb believes that Ron did not see the stop sign.

*Expected answer: No.*
### B-5 Tag Questions

A tag question is a question added at the end of a sentence. Speakers use tag questions mainly to make sure their information is correct or to seek agreement.*

<table>
<thead>
<tr>
<th>(a) Jack <em>can</em> come, <em>can't</em> he?</th>
<th>A tag question may be spoken:</th>
</tr>
</thead>
<tbody>
<tr>
<td>(b) Fred <em>can't</em> come, <em>can</em> he?</td>
<td>(1) with a rising intonation if the speaker is truly seeking to ascertain that his/her information, idea, belief is correct (e.g., <em>Ann lives in an apartment, doesn't she?</em>); or</td>
</tr>
<tr>
<td></td>
<td>(2) with a falling intonation if the speaker is expressing an idea with which she/he is almost certain the listener will agree (e.g., <em>It's a nice day today, isn't it</em>?).</td>
</tr>
</tbody>
</table>

#### Examples

<table>
<thead>
<tr>
<th>AFFIRMATIVE SENTENCE + NEGATIVE TAG → AFFIRMATIVE ANSWER EXPECTED</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mary <em>is</em> here, <em>isn't</em> she? Yes, she is.</td>
</tr>
<tr>
<td>You <em>like</em> tea, <em>don't</em> you? Yes, I do.</td>
</tr>
<tr>
<td>They <em>have</em> left, <em>haven't</em> they? Yes, they have.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>NEGATIVE SENTENCE + AFFIRMATIVE TAG → NEGATIVE ANSWER EXPECTED</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mary <em>isn't</em> here, <em>is</em> she? No, she isn't.</td>
</tr>
<tr>
<td>You <em>don't</em> like tea, <em>do</em> you? No, I don't.</td>
</tr>
<tr>
<td>They <em>haven't</em> left, <em>have</em> they? No, they haven't.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>(c) <em>This/That</em> is your book, <em>isn't</em> it?</th>
</tr>
</thead>
<tbody>
<tr>
<td><em>These/Those</em> are yours, <em>aren't</em> <em>they</em>?</td>
</tr>
</tbody>
</table>

The tag pronoun for *this/that* = *it*. The tag pronoun for *these/those* = *they*.

<table>
<thead>
<tr>
<th>(d) <em>There</em> is a meeting tonight, <em>isn't</em> there?</th>
</tr>
</thead>
</table>

In sentences with *there + be, there* is used in the tag.

<table>
<thead>
<tr>
<th>(e) <em>Everything</em> is okay, <em>isn't</em> it?</th>
</tr>
</thead>
<tbody>
<tr>
<td>(f) <em>Everyone</em> took the test, <em>didn't</em> <em>they</em>?</td>
</tr>
</tbody>
</table>

Personal pronouns are used to refer to indefinite pronouns. *They* is usually used in a tag to refer to *everyone, everybody, someone, somebody, no one, nobody*.

<table>
<thead>
<tr>
<th>(g) <em>Nothing</em> is wrong, <em>is</em> it?</th>
</tr>
</thead>
<tbody>
<tr>
<td>(h) <em>Nobody called</em> on the phone, <em>did</em> they?</td>
</tr>
<tr>
<td>(i) <em>You've never been</em> there, <em>have</em> you?</td>
</tr>
</tbody>
</table>

Sentences with negative words take affirmative tags.

<table>
<thead>
<tr>
<th>(j) <em>I am</em> supposed to be here, <em>am I not</em>?</th>
</tr>
</thead>
<tbody>
<tr>
<td>(k) <em>I am</em> supposed to be here, <em>aren't I</em>?</td>
</tr>
</tbody>
</table>

In (j): *am I not*? is formal English. In (k): *aren't I*? is common in spoken English.

---

Jim *could* use some help, *couldn't* he?
# Contractions

**In Speaking:** In everyday spoken English, certain forms of *be* and auxiliary verbs are usually contracted with pronouns, nouns, and question words.

**In Writing:**
1. In written English, contractions with pronouns are common in informal writing, but they’re not generally acceptable in formal writing.
2. Contractions with nouns and question words are, for the most part, rarely used in writing. A few of these contractions may be found in quoted dialogue in stories or in very informal writing, such as a chatty letter to a good friend, but most of them are rarely if ever written.

In the following, quotation marks indicate that the contraction is frequently spoken but rarely, if ever, written.

**UNIT D: Negatives**

**D-1 Using Not and Other Negative Words**

<table>
<thead>
<tr>
<th>(a) AFFIRMATIVE:</th>
<th>The earth is round.</th>
</tr>
</thead>
<tbody>
<tr>
<td>(b) NEGATIVE:</td>
<td>The earth is <em>not</em> flat.</td>

</tbody>
</table>

<table>
<thead>
<tr>
<th>AUX + NOT + MAIN VERB</th>
</tr>
</thead>
<tbody>
<tr>
<td>I <em>will not</em> go there.</td>

<tr>
<td>I <em>have not</em> gone there.</td>
</tr>
<tr>
<td>I <em>am not</em> going there.</td>
</tr>
<tr>
<td>I <em>was not</em> going there.</td>
</tr>
<tr>
<td>I <em>do not</em> go there.</td>
</tr>
<tr>
<td>He <em>does not</em> go there.</td>
</tr>
<tr>
<td>I <em>did not</em> go there.</td>
</tr>
</tbody>
</table>

**Not** expresses a negative idea.

**Not immediately follows an auxiliary verb or be.**

**NOTE:** If there is more than one auxiliary, **not** comes immediately after the first auxiliary: *I will *not* be going there.*

**Do or does** is used with **not** to make a simple present verb (except be) negative.

**Did** is used with **not** to make a simple past verb (except be) negative.

**Constructions of auxiliary verbs with not**

<table>
<thead>
<tr>
<th>are not = aren't*</th>
</tr>
</thead>
<tbody>
<tr>
<td>cannot = can't</td>
</tr>
<tr>
<td>could not = couldn't</td>
</tr>
<tr>
<td>did not = didn't</td>
</tr>
<tr>
<td>does not = doesn't</td>
</tr>
<tr>
<td>do not = don't</td>
</tr>
</tbody>
</table>

**has not = hasn't**

**w asn't = wasn't**

**were not = weren't**

**will not = won't**

**would not = wouldn't**

**In addition to not, the following are negative adverbs:**

- *never,* rarely, seldom
- hardly (ever), scarcely (ever), barely (ever)

**No** also expresses a negative idea.

**COMPARE: NOT VS. NO**

<table>
<thead>
<tr>
<th>(f) I <em>do not have</em> any money.</th>
</tr>
</thead>
<tbody>
<tr>
<td>(g) I <em>have no money.</em></td>
</tr>
</tbody>
</table>

**Not** is used to make a verb negative, as in (f).

**No** is used as an adjective in front of a noun (e.g., money), as in (g).

**NOTE:** Examples (f) and (g) have the same meaning.

*Sometimes in spoken English you will hear “ain’t.” It means “am not,” “isn’t,” or “aren’t.” Ain’t is not considered proper English, but many people use ain’t regularly, and it is also frequently used for humor.*

**D-2 Avoiding Double Negatives**

<table>
<thead>
<tr>
<th>(a) INCORRECT:</th>
<th>I don't have no money.</th>
</tr>
</thead>
<tbody>
<tr>
<td>(b) CORRECT:</td>
<td>I don't have <em>any</em> money.</td>
</tr>
<tr>
<td>CORRECT:</td>
<td>I have <em>no</em> money.</td>
</tr>
</tbody>
</table>

**Sentence (a) is an example of a “double negative,” i.e., a confusing and grammatically incorrect sentence that contains two negatives in the same clause. One clause should contain only one negative.*

*Negatives in two different clauses in the same sentence cause no problems; for example:*

- A person who doesn't have love can't be truly happy.
- I don't know why he isn't here.

**D-3 Beginning a Sentence with a Negative Word**

<table>
<thead>
<tr>
<th>(a) <em>Never will I do</em> that again!</th>
</tr>
</thead>
<tbody>
<tr>
<td>(b) Rarely have I <em>eaten</em> better food.</td>
</tr>
<tr>
<td>(c) Hardly ever does he come to class on time.</td>
</tr>
</tbody>
</table>

**When a negative word begins a sentence, the subject and verb are inverted (i.e., question word order is used).*

*Beginning a sentence with a negative word is relatively uncommon in everyday usage; it is used when the speaker/writer wishes to emphasize the negative element of the sentence and be expressive.*

## UNIT F: The Subjunctive in Noun Clauses

### Using the Subjunctive in Noun Clauses

| (a) | The teacher **demands** that we **be** on time. | A subjunctive verb uses the simple form of a verb. It does not have present, past, or future forms; it is neither singular nor plural. Sentences with subjunctive verbs generally stress importance or urgency. A subjunctive verb is used in that-clauses that follow the verbs and expressions listed below. In (a): **be** is a subjunctive verb; its subject is **we**. In (b): **pay** (not pays, not paid) is a subjunctive verb; it is in its simple form, even though its subject (**he**) is singular. Negative: **not** + **simple form**, as in (c). Passive: **simple form of be** + **past participle**, as in (d). |
| (b) | I **insisted** that he **pay** me the money. | |
| (c) | I **recommended** that she **not go** to the concert. |
| (d) | It is **important** that they **be told** the truth. |
| (e) | I **suggested** that she **see** a doctor. |
| (f) | I **suggested** that she **should see** a doctor. |

**Should** is also possible after **suggest** and **recommend**.*

### Common verbs and expressions followed by the subjunctive in a noun clause

| advise (that) | propose (that) | it is critical (that) | it is important (that) |
| ask (that) | recommend (that) | it is essential (that) | it is necessary (that) |
| demand (that) | request (that) | it is imperative (that) | it is vital (that) |
| insist (that) | suggest (that) |

*The subjunctive is more common in American English than British English. In British English, **should** + **simple form** is more usual than the subjunctive: The teacher **insists** that we **should be** on time.

## UNIT G: Troublesome Verbs

### Raise / Rise, Set / Sit, Lay / Lie

<table>
<thead>
<tr>
<th>Transitive</th>
<th>Intransitive</th>
<th>Raise, set, and lay are <strong>transitive</strong> verbs; they are followed by an object. Rise, sit, and lie are intransitive; they are <strong>not</strong> followed by an object.*</th>

<tr>
<td>(e) lay, laid, laid I am <strong>laying</strong> the book on the desk.</td>
<td>(f) lie,** lay, lain He is <strong>lying</strong> on his bed.</td>
<td></td>
</tr>
</tbody>
</table>

*See Appendix Chart A-1 for information about transitive and intransitive verbs.

**Lie** is a regular verb (**lie, lied**) when it means “not tell the truth”: He **lied** to me about his age.

---

*For more information, see Appendix Chart A-1 for details on transitive and intransitive verbs.

**Note:** Lay and lie are troublesome for native speakers too and are frequently misused. Lay = put Lie = recline

Part I.

A Scary Night

I had a terrible experience last night. You won’t believe what happened! A thief burst into my apartment while I was asleep. There I was, just sleeping peacefully when someone broke the glass in the sliding door!

The sound woke me up. I heard the sliding door open, so I reached for the phone by the bed and called the police. My voice shook as I told the operator there was an intruder in my home.

I hid in my bedroom closet while the thief was creeping around my office. Soon I heard sirens as the police sped to my building. From the crack in the closet door, I saw the thief as he ran outside with my computer.

The police jumped out of their cars and followed the thief, but he managed to get away in a car that was waiting for him. The police got back in their cars and drove after him. Later I learned that they caught the thief a few miles from my building.

I felt really frightened by all this. It really upset me, as you can imagine. I think I’ll stay at my sister’s house tonight.

On one side of the room, students were talking to each other in Japanese or Arabic. On the other side, students were speaking in Spanish or Portuguese. It sounded like the United Nations. Some of the students, however, were sitting quietly by themselves, not talking to anyone.

I looked for an empty seat in the last row and sat down. In a few minutes, the teacher walked into the room, and all the multilingual conversation suddenly stopped.

Computer Bugs

When there is a problem with a computer, we often say we have a "computer bug." Of course, it's not a real insect. It refers to a technical difficulty we are having. The expression actually goes back to Thomas Edison, who was a famous inventor. When he was working on his first phonograph, he had a lot of problems. He attributed the problems to an imaginary insect that had hidden inside the machine. He is quoted in a newspaper as saying there was "a bug" in his phonograph. This was in 1889, and it is the first recorded use of the word bug in such a context.

Exercise 33, p. 200.
A researcher in human behavior conducted an experiment. First she talked to a group of four-year-olds.
“How many of you can dance?” All of the children raised their hands.
“How many of you can sing?” All of the hands shot up.
“And finally, how many of you can draw?” Every child’s hand was raised.
Next the researcher went to a college class of twenty-five students in their late teens and early twenties.
“How many of you can dance?” she asked. About a third of the students raised their hands.
“How many of you can sing?” Some hands were raised, but fewer than were raised for the first question.
“How many of you can draw?” Only two hands went up.

How Chocolate Is Made

Chocolate is made from the seeds of roasted cocoa beans. After the seeds have been roasted, the inside of the seed is pressed into a liquid. This liquid is called chocolate liquor. The liquor contains fat, which is separated from the liquor. After this has been done, a solid is left. This solid, which is known as cocoa cake, is ground up and becomes unsweetened cocoa. This is a very bitter chocolate. To make it taste better, other substances such as cocoa butter and sugar will be added later.

The 2004 Indian Ocean Tsunami

In 2004, several countries that border the Indian Ocean, including Indonesia, Thailand, India, Malaysia, and Somalia, were hit by an earthquake and subsequent tsunami. (As you may already know, a tsunami is a giant ocean wave.) In just a few short hours, millions of lives were changed forever. The earthquake was measured at 9.3 on the Richter scale. It was the fourth largest earthquake since 1900 and the second largest that has ever been recorded on the Richter scale.

The quake was followed by four giant waves as high as 100 feet (or 30 meters). Whole villages were destroyed. Thousands of people were swept out to sea, and many others died due to lack of medical care. In total, almost 300,000 people were killed, and 1.3 million people were left homeless. Aftershocks from the earthquake continued for several days.

Tragically, the damage could have been lessened if there had been a tsunami early-warning system. Such a system already exists for the Pacific Ocean, but it doesn’t reach to the Indian Ocean. Since the tsunami disaster, governments have been working together to develop an early-warning system so that Southeast Asia will not experience such destruction again from a tsunami.

The Olympic Games

The Olympic Games began more than 2,000 years ago in Olympia, a small town in Greece. The games were established for two purposes. One was to showcase the physical qualities and athletic performances of its young men. At that time, only Greek males were allowed to compete. In fact, women were not even permitted to watch the games, and the only spectators were men. The other goal was to encourage good relationships among Greek cities. People of other nationalities were not invited to participate.

The winner of each event was crowned with a wreath made of olive leaves. Additionally, his statue could be placed in Olympia for all to see. Winning athletes were treated as heroes when they returned to their cities because with their victory, they brought fame and honor to their hometowns.

Some people started saying she was working there as a performer. But the truth is that she was only visiting a cousin who's a manager for the circus. Animals and Earthquakes

Whether or not animals can predict earthquakes has been widely debated for hundreds of years. In fact, as far back as 373 B.C., villagers reported that hundreds of animals deserted the Greek town of Helice a few days before an earthquake destroyed it. There are other interesting phenomena that scientists have noted. For example, before an earthquake, dogs may begin barking or howling for no reason; chickens might stop laying eggs; and some pets will go into hiding.

In Asia in 2004, many animals that were accustomed to being on the beach in the early morning refused to go there the morning of the big tsunami. In Thailand, a herd of buffalo on a beach noticed or heard something which made them run to the top of a hill before the tsunami was anywhere in sight. The villagers who followed them were saved.

What causes this strange behavior in animals? One theory is that they can sense the earth move before people can. There are vibrations deep in the earth that begin before an earthquake can be detected. Another idea is that the energy in the air changes and that animals are disturbed by these changes.

Some scientists dismiss these ideas, while others believe that they are worth researching further. Those scientists who have witnessed this strange animal behavior are certain that animals are far more sensitive to subtle changes in the earth than people are and that studying their behavior can be useful in the prediction of earthquakes.

Ron’s Busy Saturday

Ron is an active individual. On his days off, he likes to do several activities in one day. His friends can't keep up with him.

Last Saturday, for example, he began by going canoeing early in the morning. He finds early mornings on the lake very calm and relaxing. He brought a fishing rod with him so he could go fishing and perhaps catch something for dinner. He saw some friends getting their sailboat ready and thought about going sailing with them, but decided instead to go swimming. By that time, it was only noon!

After lunch, he went biking in the hills behind his town. He cooked a fish that he had caught for dinner, and it was delicious. Later, some friends called to invite him out, so he finished the day by going dancing with them.

An Issue in Health Care: Illiteracy

According to some estimates, well over half of the people in the world are functionally illiterate. This means that they are unable to perform everyday tasks because they can’t read, understand, and respond appropriately to information. One of the problems this creates in health care is that millions of people are not able to read directions on medicine bottles or packages. Imagine being a parent with a sick child and being unable to read the directions on a medicine bottle. We all know that it is important for medical directions to be understood clearly. One solution is pictures. Many medical professionals are working today to solve this problem by using pictures to convey health-care information.

Exercise 39, p. 350.

Protecting Yourself in a Lightning Storm

Lightning storms can occur suddenly and without warning. It’s important to know how to stay safe if you’re outside when a storm begins. Some people stand under trees or in open shelters like picnic areas in order to protect themselves. They are surprised to hear that this can be a fatal mistake. Tall objects are likely to attract lightning, so when you are out in the open, you should try to make yourself as small as possible. Crouching down or curling up into a ball lessens the chance that a lightning bolt will strike you. Finding a depression in the ground to hide in, like a hole or a ditch, is even better.

Being inside a building is safer than being outside, but it’s not without dangers. Be careful to stay away from doors and windows. If you’re talking on a phone with a cord, hang up. Lightning has been known to travel along a phone cord and strike the person holding the phone. Even TVs can conduct lightning through the cable or antenna, so it’s a good idea to stay away from the television. It’s also inadvisable to take a shower or bath since plumbing can conduct electricity from lightning.

How safe are cars? Surprisingly, the inside of a car is safe as long as it has a metal roof, but avoid touching any part of the car that leads to the outside.

There’s a 30/30 rule regarding lightning. As soon as you see lightning, begin counting the seconds until you hear thunder. If you hear thunder before you reach 30, this means you need to seek shelter immediately. Additionally, even if the storm has passed, you want to stay in a protected place for 30 minutes after you hear the last sounds of thunder or have seen the last flashes of lightning. Many lightning deaths, in fact more than half in the United States, occur after a storm has passed.

Bats

(1) What do people in your country think of bats? Are they mean and scary creatures, or are they symbols of both happiness and luck?
(2) In Western countries, many people have an unreasoned fear of bats. According to scientist Dr. Sharon Horowitz, bats are not only harmless but also beneficial mammals. "When I was a child, I believed that a bat would attack me and tangle itself in my hair. Now I know better," said Dr. Horowitz.
(3) Contrary to popular Western myths, bats do not attack humans. Although a few bats may have diseases, they are not major carriers of rabies or other frightening diseases. Bats help natural plant life by pollinating plants, spreading seeds, and eating insects. If you get rid of bats that eat overripe fruit, then fruit flies can flourish and destroy the fruit industry.
(4) According to Dr. Horowitz, bats are both gentle and trainable pets. Not many people, however, own or train bats, and bats themselves prefer to avoid people.

Butterflies

A butterfly is a marvel. It begins as an ugly caterpillar and turns into a work of art. The sight of a butterfly floating from flower to flower on a warm, sunny day brightens anyone’s heart. A butterfly is a charming and gentle creature. Caterpillars eat plants and cause damage to some crops, but adult butterflies feed principally on nectar from flowers and do not cause any harm. When cold weather comes, some butterflies travel great distances to reach tropical climates. They can be found on every continent except Antarctica. Because they are so colorful and beautiful, butterflies are admired throughout the world.

Chapter 17: Adverb Clauses

Exercise 11, p. 372.

Cultural Misunderstandings

Since Marco and Anya came to this country, they’ve had some memorable misunderstandings due to language and culture. The first time Marco met someone at a party, he was asked “How’s it going?” Marco thought that the person was asking him about leaving, and that seemed very strange.

Once, Anya walked into class, and a native speaker said, “Hi. How are you?” When Anya started to give a long answer, the native speaker looked at her rather oddly. This happened several times until Anya learned she was just supposed to say something like “Okay” or “Fine, thanks. And you?”

Another time, Marco was at a restaurant and wanted to get the server’s attention. He snapped his fingers. The server was not pleased.

Since coming here, Marco and Anya have learned that cultural misunderstandings are a normal part of learning another language. They can be valuable and even entertaining learning experiences. Marco and Anya just smile at these misunderstandings now.

Exercise 18, p. 396

The QWERTY Keyboard

Do you know why the letters on an English language keyboard are placed where they are? Take a minute and look at the second row on the keyboard in the picture. Notice that Q-W-E-R-T-Y are the first six letters beginning on the left. In fact, the keyboard is called “QWERTY.” As you look at all the letters on the keyboard, does it seem to make any sense to you? Many people have wondered about this rather strange placement of keys, but as it turns out, there is a logical reason for the design.

A man named Christopher Sholes, the inventor of the typewriter, came up with this keyboard in the 1860s. Wanting to create a logical design, Sholes first placed the letters in alphabetical order on his typewriter. He put two rows from A to Z on the keyboard.

But Sholes found there was a problem. The letters were on typebars — typebars, by the way, are also called keys — and some of these keys crashed into one another. This happened when letters that often occur together in words, like “s” and “l,” were near each other on the keyboard. The keys tended to hit each other and get stuck, and the typist would have to stop and pull them apart.

Trying to figure out a way to keep the keys from hitting one another, Sholes made a list of letters commonly used together in English, like the pair I already mentioned, “s” and “l,” or, for example, “q” and “u.” He then rearranged these letters so they would be on opposite sides of the keyboard. If you look at a keyboard, “q” is on the left side and “u” is on the right side. He put the keys that were most likely to be hit one after the other on opposite sides of the keyboard. This keyboard became known as QWERTY.

Nowadays, with computers, we don’t have to worry about keys crashing into one another, so QWERTY is not necessarily the fastest and most efficient keyboard. Other people have come up with alternative keyboard patterns, but so far, none has gained much popularity. Having survived since the 1860s, QWERTY has demonstrated its longevity. It does not appear that it is going to be replaced any time soon by a faster, more efficient keyboard.

Why We Yawn

Have you ever noticed that when a person near you yawns, you may start yawning too? This is called contagious yawning. Contagious in this sense means that the behavior spreads: when one person does something like yawn, it can cause others to do the same thing.

There are various theories about why people yawn. One popular idea is that yawning brings more oxygen into the brain to wake people up. Is that what you have thought? But in 2007, researchers at a university in New York came up with a new idea: yawning helps cool the brain.

Scientists found that people yawned more frequently in situations where their brains were warmer. The idea is that yawning cools the brain by increasing blood flow and bringing cooler air into the body. Cooler brains work better than warmer ones.

This may also help explain why yawning is contagious. People are more awake when their brains are cooler. As people evolved over time, contagious yawning helped people stay awake. This was important in times of danger. It’s very possible that the person yawning could have been signaling to others to stay awake.

The next time you are talking to someone and that person yawns, you can tell yourself that he or she actually wants to stay awake, not go to sleep.

The Extinction of Dinosaurs

There are several scientific theories as to why dinosaurs became extinct. One theory has to do with asteroids. Asteroids, as you may know, are rocky objects that orbit the sun. According to this theory, an asteroid collided with the earth millions of years ago, causing disastrous changes in the earth’s climate, such as tsunamis, high winds, and dust in the atmosphere that blocked the sun. As a result, dinosaurs could no longer survive. Some scientists believe that if this asteroid had not collided with the earth, dinosaurs would not have become extinct.

Passage 1: Turtles
Turtles have survived on earth for more than 200 million years, but now many species face extinction. People in many parts of the world use them for food and for traditional medicine, so the demand for them is high. In spite of international trade laws that protect them, illegal traffic in turtles is increasing.

Passage 2: Boy or Girl?

Early Writing Materials

The chief writing material of ancient times was papyrus. It was used in Egypt, Greece, and other Mediterranean lands. Parchment, another writing material that was widely used in ancient times, was made from the skins of animals such as sheep and goats. After the hair had been removed, the skins were stretched and rubbed smooth to make a writing surface. Paper, the main writing material today, was invented by the Chinese.

Ink has been used for writing and drawing throughout history. No one knows when the first ink was developed. The ancient Egyptians and Chinese made ink from various natural substances, such as berries, soot, and tree bark. Through the centuries, thousands of different formulas have been developed for ink. Most ink today is made from synthetic chemicals.

Exercise 23, p. 225.

(1) Throughout history, paper has been made from various plants such as rice and papyrus, but today wood is the chief source of paper. In the past, paper was made by hand, but now most of the work is done by machines. Today paper is made from wood pulp by using either a mechanical or a chemical process.

(2) In the mechanical process, wood is ground into small chips. During the grinding, it is sprayed with water to keep it from burning from the friction of the grinder. Then the chips are soaked in water.

(3) In the chemical process, first the wood is washed, and then it is cut into small pieces in a chipping machine. Then the chips are cooked in certain chemicals. After the wood is cooked, it is washed to get rid of the chemicals.

(4) The next steps in making paper are the same for both the mechanical and the chemical processes. The pulp is drained to form a thick mass, (is) bleached with chlorine, and then (is) thoroughly washed again. Next the pulp is put through a large machine that squeezes the water out and forms the pulp into long sheets. After the pulp sheets go through a drier and a press, they are wound onto rolls. These rolls of paper are then ready for use.

(5) The next time you use paper, you should think about its origin and how it is made. And you should . . .

The First Telephone

Alexander Graham Bell, a teacher of the deaf in Boston, invented the first telephone. One day in 1875, while running a test on his latest attempt to create a machine that could carry voices, he accidentally spilled acid on his coat. Naturally, he called for his assistant, Thomas A. Watson, who was in another room. Bell said, “Mr. Watson, come here. I want you.” Upon hearing words coming from the machine, Watson immediately realized that their experiments had at last been successful. He rushed excitedly into the other room to tell Bell that he had heard his words over the machine.

After successfully testing the new machine again and again, Bell confidently announced his invention to the world. For the most part, scientists appreciated his accomplishment, but the general public did not understand the revolutionary nature of Bell’s invention. Believing the telephone was a toy with little practical application, most people paid little attention to Bell’s announcement.
